

JECRC Foundation

NBA ACCREDITATION

The National Board of Accreditation (NBA), setup by the All India Council for Technical Education (AICTE) – New Delhi, assesses academic programmes and other facilities offered by engineering colleges. NBA assesses their performance, quality of education imparted, placement of students, infrastructural facilities, cultural activities, etc.

It awards an accreditation certificate to specific programmes after conducting a 3-day long on-campus evaluation of the institute by a high powered committee. JECRC Foundation is proud to be the only institution in the region whose engineering course has earned this most coveted accreditation.
