Proposal Letter For Creative Programming With C++ Programming

To

Date: 22nd Jan 2018

The Principal

JECRC, Jaipur

Dear Sir,

Jaipur Engineering College and Research Centre has signed a MOU with TechieNest Pvt. Ltd. Jaipur to conduct skill development programs on different aspects of "Creative Programming with C++ Programming".

Many students from Jaipur Engineering College and Research Centre have shown interest to participate in the course Training Course on "Creative Programming with C++ Programming" in association with TechieNest Pvt. Ltd. Jaipur. The Completion certificate will be given to every student who will complete the course.

I kindly request you to grant permission with respect to promoting this course to students. The course is free of cost. The course will be conducted from next week between 3:00 to 6:00 P.M.

Enclosed:

About JECRC Jaipur

Education is the foundation upon which a progressive nation and its citizens stand. JECRC Foundation, since its inception (17 years), has taken over the mission of nurturing students with the establishment of **Engineering Colleges in Jaipur**.

JECRC Foundation is ascribed as one of the leading educational groups in North India and strengthening the engineering culture. The Foundation is a leading education group, with institutes for Engineering, Management and Applied sciences.

The Foundation encourages all-round personality development through extra-curricular activities and competitive events. Students have also benefited from the Foundation's strong industry linkages and secured training & career opportunities with leading organizations.

Department of Computer Science & Engineering

It is one of the oldest departments of the institute, offering a fine blend of experience and innovation in teaching in UG. The department provides a life-long learning experience, through its state of art laboratories, vast courses, and industry-orientation. A vast collaborative framework with reputed universities world over, the department offers ample opportunities for individual growth.

About Jaipur

Jaipur, popularly known as the "Pink City", and "Paris of India", is the capital of Rajasthan state, India. Jaipur is worldwide famous for unique Architecture, Vastu, Astrology, Forts, Monuments, Palaces, Art and Craft, Culture and last but not least for unique Food. Jaipur is renowned on international tourism map as one vertex of Golden Triangle of Indian tourism. Many scripts and poems have been written on the beauty of Jaipur city by domestic tourists as well as foreign tourists. Countless documentary movies have been made on Jaipur in last 250 years.

Objectives of the Workshop

Creative Learning with C++ Programming Workshop mainly focuses on how to become a creative and industry ready as C++ programmer. Only the basic knowledge of programming and C Language is required for Creative Learning with C++ Programming, you do not have to be an expert for it. The workshop will start from the basics of C to advance level programming of C++. Once the basics of C++ are done, we will begin with creative programming in C++.

Course Curriculum

Creative Programming with C++ Programming (36 Hrs)

Syllabus Structure

Day 1: Introduction to C++

- a) Starting with C++
- b) How C++ evolved from C?
- c) Features of C++
- d) Procedure-oriented programming
- e) OOP vs. procedure-oriented programming
- f) The basic anatomy of a C++ program
- g) Starting with a simple “Hello World” program
- h) Compiling, linking and running a C++ program

Day 2: Object-Oriented Programming Concepts

- a) Abstraction
- b) Inheritance
- c) Polymorphism
- d) Data Binding
- e) Encapsulation
- f) Classes, subclasses and Objects

Day 3: The Basics of C++

- a) Base Data Types and sizes
- b) User-defined Data Types

- c) Variable Declarations, Variable Names
- d) Dynamic initialization of variables
- e) Constants and its types: Character Constants, String Constants
- f) Standard input and standard output
- i) Formatted input –cin
- j) Formatted output – cout
- k) Use of << and>> operators

Day 4: Working with Operators and Expressions

- a) Operators
- b) Arithmetic Operators
- c) Relational Operators
- d) Assignment Operator
- e) Logical Operators
- f) Increment and Decrement Operators (++ and --)
- g) 'Operate-Assign' Operators (+=, *=, ...)
- b) Expressions
- h) What are Expressions?
- i) Operator Precedence
- j) Precedence and Order of Evaluation
- k) Conditional Expression
- l) Casting and type conversion

Day 5: Controlling the Program Flow

- a) Decision control
 - If
 - if – else

- if - else if
- b) Loop Control
 - while
 - do – while
 - for
 - break
 - continue
- c) Case Control
 - switch
 - goto

Day 6: Using Functions/Procedures

- a) Why Functions?
- b) Anatomy of a Function
- c) Returning values from functions
- d) Arguments Passed by Value
- e) Passing Addresses of Arguments
- f) Concept of variable scope and scope rules
- g) Static and automatic variables
- h) Global variables

Day 7: Pointers and Arrays

- a) Pointers
- b) What is a Pointer?
- c) Pointer Initialization
- d) Pointer Operators
- e) The & Operator
- f) Pointer Arithmetic

- g) Functions and pointers
- h) Understanding Arrays
- i) Arrays
- j) Initializing Arrays
- k) Passing Arrays to Functions
- l) Pointers and Arrays
- m) Pointer to an Array
- n) Array of pointers
- o) Strings
- p) String I/O
- q) cin and cout member functions
- r) Standard C String functions
- s) Arrays of Strings

Day 8: Binding data and functions

- a) Concept of a class
- b) Defining a class
- c) Creating an object
- d) Object Scope
- e) Data Abstraction
- f) Enforcing Data Encapsulation
- g) 'this' Pointer
- h) Dynamic creation of objects
- i) Constructors and Destructors
- j) The Default Constructor
- k) The Destructor
- l) Parameterized Constructors

- m) Copy constructor
- n) Defining member functions
- o) Methods and access modifiers
- p) Accessing class data and methods
- q) Friend class and friendly functions
- r) Returning objects
- s) Arrays of Objects

Day 9: Function and Operator Overloading

- a) Function Overloading
- b) Using overloaded functions
- c) Rules for overloading
- d) Operator overloading and its uses
- e) Overloading unary and binary operators
- f) Overloading the assignment operator
- g) Overloading the << Operator
- h) Overloading the increment and decrement operator
- i) Dealing with strings using operators
- j) Converting data types
- k) Basic to class type
- l) Class to basic type
- m) Class to another class type

Day 10: Reusing classes

- a) Inheritance-Base and Derived classes
- b) Inheritance types
- c) Scope Resolution operator

- d) Access Modifiers
- e) Access and Inheritance
- f) Constructors and Inheritance (Multiple & Multilevel Inheritance)
- g) Calling base class constructor
- h) Overriding base class members

Day 11: Virtual functions and Polymorphism

- a) Virtual & non-virtual Overriding
- b) Virtual functions
- c) Rules for virtual functions
- d) Pure virtual functions
- e) Static and Dynamic Binding
- f) Virtual base classes

Day 12: Templates, Exception Handling

- a) Templates
- b) Function templates
- c) Class templates
- d) Exception handling
