Vision of Institute

To become a renowned center of outcome based learning, and work towards academic, professional, cultural and social enrichment of the lives of individuals and communities.

Mission of Institute

- Focus on evaluation of learning outcomes and motivate students to inculcate research aptitude by project based learning.
- Identify, based on informed perception of Indian, regional and global needs, areas of focus and provide platform to gain knowledge and solutions.
- Offer opportunities for interaction between academia and industry.
- Develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions.

Vision of Department

To contribute to the society through excellence in scientific and technical education, teaching and research aptitude in Electronics and Communication Engineering to meet the needs of Global Industry.

Mission of Department

- M1: To equip the students with strong foundation of basic sciences and domain knowledge of ECE, so that they are able to creatively their knowledge to the solution of problems arising in their career path.
- M2: To induce the habit of lifelong learning to continuously enhance overall performance.
- M3: Students are able to communicate their ideas clearly and concisely so that they can work in team as well as an individual.
- M4: To make the students responsive towards the ethical, social, environmental and in economic context for the society.

Program Outcomes

- PO1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and electronics & communication engineering specialization to the solution of complex electronics and communication engineering problems.
- PO2. **Problem analysis:** Identify, formulate, research literature, and analyze complex electronics and communication engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- PO3. **Design/development of solutions:** Design solutions for complex electronics and communication engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- PO4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of electronics and communication engineering experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- PO5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern electronic engineering and IT tools including prediction and modeling to complex electronics and communication engineering activities with an understanding of the limitations.
- PO6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional electronics and communication engineering practice.
- PO7. **Environment and sustainability:** Understand the impact of the professional electronics and communication engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- PO8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the electronics and communication engineering practice.
- PO9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

- PO10. **Communication:** Communicate effectively on complex electronics and communication engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PO11. **Project management and finance:** Demonstrate knowledge and understanding of the electronics and communication engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- PO12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of electronics and communication engineering changes.

Program Educational Objectives

- PEO1. To provide students with the fundamentals of engineering sciences with more emphasis in Electronics & Communication Engineering by way of analyzing and exploiting electronics & communication challenges.
- PEO2. To train students with good scientific and Electronics & Communication Engineering knowledge so as to comprehend, analyze, design and create electronics & communication based novel products and solutions for the real life problems.
- PEO3. To inculcate professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach, entrepreneurial thinking and an ability to relate Electronics & Communication Engineering with social issues.
- PEO4. To provide students with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the self-motivated life-long learning needed for a successful Electronics & Communication Engineering professional career.
- PEO5. To prepare students to excel in electronics & communication based industry and higher education by educating students in Electronics & Communication Engineering field along with high moral values and knowledge.

Program Specific Outcomes

- PSO1. Ability to develop knowledge for robotics and its application.
- PSO2. Ability to apply the concept of IoT for challenges of real- world.

RESPONSIBILITY OF MENTOR

- Take an interest in developing student's career and well-being.
- Mentors keep track of their students' progress and achievements, setting milestones and acknowledging accomplishments.
- Encourage students for attending all the activity related to academics.
- Informing students about the profile of companies coming for recruitment as per information obtained from placement department.
- Engage the Student beyond the Classroom especially for communication practices and emphasize the importance of communication for sure success.
- Keep the department/panel members informed, if any student is not taking his/her Academics seriously.
- Guide student for practical training and project presentation.
- Guide students for technical interview.
- Guide and Evaluate student for Group Discussion (GD) for companies requiring GD.
- Guide students for General Knowledge about Industries in their domain.
- Provide Ethical Guidance:

NOTICE

Date-27/07/2020

To- Mentee.

From: Mentor (Dr. Girraj Sharma)

From: Mentor (Dr. Girraj Sharma)	To: All Mentees
----------------------------------	-----------------

All the Mentees are informed that there is a meeting to discuss about your academic and non-academic problems, all of you must be present.

Meeting Venue, Date and Timing are as below:

Meeting Venue, Time and Date: On Zoom app at 03:45 PM on Friday, July 31, 2020.

Dr. Girraj Sharma
Contact no. - 9928541118
Email Id- girrajsharma@jecrc.ac.in
(Assistant Professor ECE, JECRC)

Jaipur Engineering College and Research Centre
Department of Electronics & Communication Engineering Session
2020-2021

Minutes of Meeting 1

From: Mentor (Dr. Girraj Sharma)	To: All Mentees
----------------------------------	-----------------

Date: 01/08/2020

Agenda –

1. To discuss about any problem during online lecturer.
2. To discuss about new learning skills.
3. To discuss about health of student and family members.
4. Any other issue

Attendees: List Attached

Meeting Venue Time and Date: On Zoom app at 03:45 PM on Friday, July 31, 2020.

Meeting started with a welcome note by Dr. Girraj Sharma and following points were discussed during the meeting.

S.No.	Points
1.	About the timing of the lectures and number of lectures in day.
2.	About new learning skills.
3.	For providing study material.
4.	About MTT exam date.

Action Taken

1. For Absentee students phone call made to students and informed to Participate in Academic Activity.
2. It was told that not more than 3 lectures will be scheduled in a day for online theory classes.
3. Provided those links of many online skill development courses.
4. Hand written notes and books pdf of all subjects were uploaded on Google classroom by respective faculty members.
5. Academic calendar has been shared with students so that they can see date of MTTs

Vision of Institute

To become a renowned center of outcome based learning, and work towards academic, professional, cultural and social enrichment of the lives of individuals and communities.

Mission of Institute

- Focus on evaluation of learning outcomes and motivate students to inculcate research aptitude by project based learning.
- Identify, based on informed perception of Indian, regional and global needs, areas of focus and provide platform to gain knowledge and solutions.
- Offer opportunities for interaction between academia and industry.
- Develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions.

Vision of Department

To contribute to the society through excellence in scientific and technical education, teaching and research aptitude in Electronics and Communication Engineering to meet the needs of Global Industry.

Mission of Department

- M1: To equip the students with strong foundation of basic sciences and domain knowledge of ECE, so that they are able to creatively their knowledge to the solution of problems arising in their career path.
- M2: To induce the habit of lifelong learning to continuously enhance overall performance.
- M3: Students are able to communicate their ideas clearly and concisely so that they can work in team as well as an individual.
- M4: To make the students responsive towards the ethical, social, environmental and in economic context for the society.

Program Outcomes

- PO1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and electronics & communication engineering specialization to the solution of complex electronics and communication engineering problems.
- PO2. **Problem analysis:** Identify, formulate, research literature, and analyze complex electronics and communication engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- PO3. **Design/development of solutions:** Design solutions for complex electronics and communication engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- PO4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of electronics and communication engineering experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- PO5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern electronic engineering and IT tools including prediction and modeling to complex electronics and communication engineering activities with an understanding of the limitations.
- PO6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional electronics and communication engineering practice.
- PO7. **Environment and sustainability:** Understand the impact of the professional electronics and communication engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- PO8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the electronics and communication engineering practice.

- PO9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- PO10. **Communication:** Communicate effectively on complex electronics and communication engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PO11. **Project management and finance:** Demonstrate knowledge and understanding of the electronics and communication engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- PO12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of electronics and communication engineering changes.

Program Educational Objectives

- PEO1. To provide students with the fundamentals of engineering sciences with more emphasis in Electronics & Communication Engineering by way of analyzing and exploiting electronics & communication challenges.
- PEO2. To train students with good scientific and Electronics & Communication Engineering knowledge so as to comprehend, analyze, design and create electronics & communication based novel products and solutions for the real life problems.
- PEO3. To inculcate professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach, entrepreneurial thinking and an ability to relate Electronics & Communication Engineering with social issues.
- PEO4. To provide students with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the self-motivated life-long learning needed for a successful Electronics & Communication Engineering professional career.
- PEO5. To prepare students to excel in electronics & communication based industry and higher education by educating students in Electronics & Communication Engineering field along with high moral values and knowledge.

Program Specific Outcomes

- PSO1. Ability to develop knowledge for robotics and its application.
- PSO2. Ability to apply the concept of IoT for challenges of real world.

RESPONSIBILITY OF MENTOR

- Take an interest in developing student's career and well-being.
- Mentors keep track of their students' progress and achievements, setting milestones and acknowledging accomplishments.
- Encourage students for attending all the activity related to academics.
- Informing students about the profile of companies coming for recruitment as per information obtained from placement department.
- Engage the Student beyond the Classroom especially for communication practices and emphasize the importance of communication for sure success.
- Keep the department/panel members informed, if any student is not taking his/her Academics seriously.
- Guide student for practical training and project presentation.
- Guide students for technical interview.
- Guide and Evaluate student for Group Discussion (GD) for companies requiring GD.
- Guide students for General Knowledge about Industries in their domain.
- Provide Ethical Guidance.

NOTICE

Date-27/04/2021
To- Mentee

From: Mentor (Mr. Mangilal)

From: Mentor (Mr. Mangilal)	To: All Mentees
-----------------------------	-----------------

All the Mentees are informed that there is a meeting to discuss about your academic and non-academic problems, all of you must be present.

Meeting Venue, Date and Timing are as below:

Meeting Venue, Time and Date: On Zoom app at 03:45 PM on Friday, April 30, 2021.

Mr. Mangilal
Contact no. - 7073577172
Email Id- mangilal@jecrc.ac.in
(Assistant Professor ECE, JECRC)

Copy to-All Concerned

JAIPUR ENGINEERING COLLEGE
AND RESEARCH CENTRE

**Jaipur Engineering College and Research Centre
Department of Electronics & Communication Engineering Session
2020-2021**

Minutes of Meeting 1

From: Mentor Mr. Mangilal	To: All Mentees
---------------------------	-----------------

Date: 01/05/2021

Agenda –

1. To discuss about any problem during online lecturer.
2. To discuss about new learning skills.
3. To discuss about health of student and family members.
4. Any other issue

Attendees: List Attached

Meeting Venue Time and Date: On Zoom app at 03:45 PM on Friday, April 30, 2021.

Meeting started with a welcome note by Mr. Mangilal and following points were discussed during the meeting.

S.No.	Points
1.	About the timing of the lectures and number of lectures in day.
2.	About new learning skills.
3.	For providing study material.
4.	About MTT exam date.

JAIPUR ENGINEERING COLLEGE
AND RESEARCH CENTRE

Action Taken

1. For Absentee students phone call made to students and informed to Participate in Academic Activity.
2. It was told that not more than 3 lectures will be scheduled in a day for online theory classes.
3. Provided those links of many online skill development courses.
4. Hand written notes and books pdf of all subjects were uploaded on Google classroom by respective faculty members.
5. Academic calendar has been shared with students so that they can see date of MTTs

Vision of the Department

Electrical Engineering Department strives to be recognized globally for outcome based knowledge and to develop human potential to practice advance technology which contribute to society.

Mission of the Department

- M1. To impart quality technical knowledge to the learners to make them globally competitive Electrical Engineers.
- M2. To provide the learners ethical guidelines along with excellent academic environment for a long productive career.
- M3. To promote industry-institute relationship.

Program Educational Objectives

1. To provide students with the fundamentals of Engineering Sciences with more emphasis in **Electrical Engineering** by way of analyzing and exploiting engineering challenges .
2. To train students with good scientific and engineering knowledge so as to comprehend, analyze, design, and create novel products and solutions for the real life problems.
3. To inculcate professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach, entrepreneurial thinking and an ability to relate engineering issues with social issues.
4. To provide students with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the self motivated life-long learning needed for a successful professional career.
5. To prepare students to excel in Industry and Higher education by Educating Students along with High moral values and Knowledge

PROGRAM OUTCOMES

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems in Electrical engineering.
2. **Problem analysis:** Identify, formulate, research literature, and analyze complex Electrical engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex Electrical engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions in Electrical engineering.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex Electrical engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional Electrical engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional Electrical engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the Electrical engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings in Electrical engineering.
10. **Communication:** Communicate effectively on complex Electrical engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the Electrical engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change in Electrical engineering.

RESPONSIBILITY OF MENTOR

- Take an interest in developing student's career and well-being.
- Mentors keep track of their students' progress and achievements, setting milestones and acknowledging accomplishments.
- Encourage students for attending all the activity related to academics.
- Informing students about the profile of companies coming for recruitment as per information obtained from placement department.
- Engage the Student beyond the Classroom especially for communication practices and emphasize the importance of communication for sure success.
- Keep the department / panel members informed, if any student is not taking his/her Academics seriously.
- Guide student for practical training and project presentation.
- Guide students for technical interview.
- Guide and Evaluate student for GD for companies requiring GD.
- Guide students for General Knowledge about Industries in their domain.
- Provide Ethical Guidance.

Jaipur Engineering College and Research Centre

Department of Electrical Engineering

NOTICE

Date- 25/05/2021

From: Mentor (Mrs. Jisha Varghese)

To- Mentee (Roll No. 1 to 20)

From: Mentor (Mrs. Jisha Varghese)	To: All Mentees
------------------------------------	-----------------

All the Mentees are informed that there is a Meeting Regarding Time Table, Classes Conduction and Attendance in Lectures.

Meeting Venue Date and Timing are as below:

Meeting Venue Time and Date: Online at 12:00 noon on ,27th May 2021

Mrs. Jisha Varghese
Mob No.-9828054754
email-jishavarghese.ee@jecrc.ac.in
(Assistant Professor EE JECRC)

Department of Electrical Engineering

Minutes of Meeting 1

From: Mentor (Mrs. Jisha Varghese)	To: All Mentees
------------------------------------	-----------------

27/05/2021

Agenda –

- Transfer of information related to online classes and college.
- The solution to Queries raised by students
- Reporting of Students.
- Time Table
- Attendance

Attendees: List Attached

Meeting Venue Time and Date: Online at 12:00 noon on May 27, 2021

Meeting started with a welcome note by Mrs. Jisha Varghese (Assistant Professor, EE) and following points were discussed during the meeting.

S.No.	Points
1.	Overall Feedback of each student
2.	Information related to the conduction of online classes.

Department of Electrical Engineering

Minutes of Meeting 2

From: Mentor (Mrs. Jisha Varghese)

To: All Mentees

18/09/2020

Agenda –

1. About well being & Covid update.
2. Students facing any issue in classes, performance & other issues.

Attendees: List Attached

Meeting Venue Time and Date: Online at 12:00 noon on Sept18, 2021

Meeting started with a welcome note by Mrs. Jisha Varghese (Assistant Professor, EE) and following points were discussed during the meeting.

S.No.	Points
1.	Looking after the current covid scenario it was better to be in touch with the students as a moral support in this duration. Some technical subject should be taught by experts so basics can be clear more preciously
2.	It was discussed that as RTU gives credits for online courses (MOOCs) so all the students must register themselves in the online digital learning platforms like NPTEL, Coursera, udemy etc.

Vision of the Department

Electrical Engineering Department strives to be recognized globally for outcome based knowledge and to develop human potential to practice advance technology which contribute to society.

Mission of the Department

- M1. To impart quality technical knowledge to the learners to make them globally competitive Electrical Engineers.
- M2. To provide the learners ethical guidelines along with excellent academic environment for a long productive career.
- M3. To promote industry-institute relationship.

Program Educational Objectives

1. To provide students with the fundamentals of Engineering Sciences with more emphasis in **Electrical Engineering** by way of analyzing and exploiting engineering challenges .
2. To train students with good scientific and engineering knowledge so as to comprehend, analyze, design, and create novel products and solutions for the real life problems.
3. To inculcate professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach, entrepreneurial thinking and an ability to relate engineering issues with social issues.
4. To provide students with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the self motivated life-long learning needed for a successful professional career.
5. To prepare students to excel in Industry and Higher education by Educating Students along with High moral values and Knowledge

PROGRAM OUTCOMES

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems in Electrical engineering.
2. **Problem analysis:** Identify, formulate, research literature, and analyze complex Electrical engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex Electrical engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions in Electrical engineering.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex Electrical engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional Electrical engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional Electrical engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the Electrical engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings in Electrical engineering.
10. **Communication:** Communicate effectively on complex Electrical engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the Electrical engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change in Electrical engineering.

RESPONSIBILITY OF MENTOR

- Take an interest in developing student's career and well-being.
- Mentors keep track of their students' progress and achievements, setting milestones and acknowledging accomplishments.
- Encourage students for attending all the activity related to academics.
- Informing students about the profile of companies coming for recruitment as per information obtained from placement department.
- Engage the Student beyond the Classroom especially for communication practices and emphasize the importance of communication for sure success.
- Keep the department / panel members informed, if any student is not taking his/her Academics seriously.
- Guide student for practical training and project presentation.
- Guide students for technical interview.
- Guide and Evaluate student for GD for companies requiring GD.
- Guide students for General Knowledge about Industries in their domain.
- Provide Ethical Guidance.
