PREAMBLE

A Webinar on 'Strategy to Crack ESE, GATE & Other Engineering Competitive Exams' was organized by the Jaipur Engineering college and Research Centre, Jaipur on dated 8th January 2021, at 02:00pm, via Live session on YOUTUBE. Around 1448 students participated in this program.

The objective of the session was to provide information regarding the strategy to crack ESE, GATE & other engineering competitive examinations.

In this modern era, competition has reached at its apex and is continuously increasing day by day. Competition is now turning into a vast and destructible forest fire in which everyone is jumping in order to prove themselves and to stand apart from the crowd. Everyone is try to give their best, but in order giving the best they are suffering with extreme depression and anxiety which is ultimately leading them to the path of destruction "SELF DESTRUCTION".

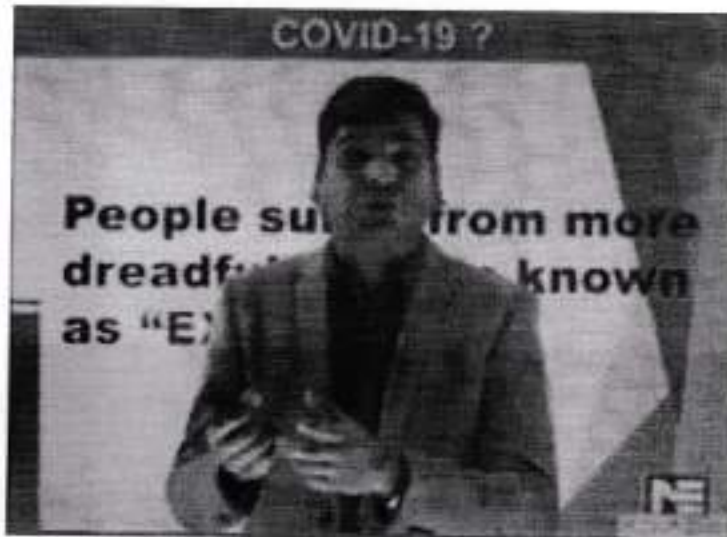

Therefore, to get a control over their thoughts and to get a right direction on which they can focus, they need someone who can guide them to achieve their goals in a quiet good manner and in a limited time period without some sort of depression and failure.

ABOUT THE SESSION

Jaipur Engineering College and Research Centre organized a webinar on Strategy to Crack ESE, GATE & Other Engineering Competitive Exams for the students on 08 January 2021. The Speaker for the webinar was Mr. Sunil Kumar Tiwari, Senior Faculty Member and Motivational Speaker MADE EASY Group.

The talk started on discussing the effects of **COVID-19** on entire economy in the present Scenario and what will be its future in the Private Sector and Government Sector. Mr. Sunil gave some figures that how economy has been poorly affected by COVID -19 and suggested some methods that what should be done to come out of it.

21

It was all about giving students the methodologies and information for their career and providing them a path to crack the exams throwing light on making timetables and learning and working strategies.

Further, the discussion extended to the information regarding the subject content tips to crack working detailing on exams like GATE, UPSC, Bank PO, SSC, RPSC, BPSC UPPSC and certain exams for MBA like CAT and characteristics of learning outcomes.

JEE RC, Jaipur

Mr. Suneel also emphasized to choose the study material wisely and group studies also helps a lot because the group of students with whom you are studying will help to solve the problems' more effectively , making of own notes study with concentration regular exercise and evaluate yourself were some of the tips given to students.

The speaker also motivated students in between the session by talking them on failures and success and of the ways to overcome on failures. He also taught students to work on Self Introspection, because when a person knows about his failures and strengths and threats he will improvise himself and can definitely work on the areas where he needs to work and move towards success, the speaker also took examples from the Epic Geeta which tells for constant effort and Karma, He also gave examples of Arjun.

**Head of the Department
Mechanical Engineering
JECRC, Jaipur**

At last Mr. Sunil ended the session with the beautiful lines

“I am not failed my success is postponed”.

At last he also provided students' time to put up there queries regarding the talk or any questions for different exams, the students put their doubts and they were answered smartly by Mr. Sunil.

"DEMYSTIFYING DEEP LEARNING AND MACHINE LEARNING"

Department of Electronics and Communication Engineering, Jaipur Engineering College & Research Center (JECRC), Jaipur has organized a WEBINAR on "**Demystifying Deep Learning and Machine Learning**", in association with IEEE Rajasthan Subsection, & OSA Student Chapter-JECRC on 17/07/2020 from 04:00 PM to 5.00 PM through GOOGLE MEET. All registered participants received E-certificates after the end of session and submitted feedback form. Registration for this event was done by using goggle form and it is free for the JECRC as well as outside participants. The event coordinator was *Dr. Sandeep Vyas*, HOD ECE department and moderator was *Mr. Jaiverdhan*, Assistant Professor, ECE department, JECRC Jaipur.

The invited speaker for this event is *Dr. Kuldeep Singh, Department of ECE, MNIT Jaipur(Ex-Scientist, BEL INDIA)*. The brief bio of speaker is attached as follow.

About the Speaker:

Dr. Kuldeep Singh has received his Ph.D. degree in Computer Vision from Delhi Technological University, New Delhi, India and M.Tech. degree in Signal Processing from Netaji Subhash Institute of Technology, New Delhi. He has worked as postdoctoral fellow at University of Alberta, Canada, where he was involved in development of deep learning based functional prototype for agriculture applications. Before joining MNIT, he has worked at Central Research Laboratory of Bharat Electronics Ltd. (BEL) Ghaziabad as Scientist from Jan 2007 to Mar 2019. During his stint at BEL, he has worked on various projects of national importance. He was involved in software development of various C4I systems for Indian & foreign defense forces. He has been awarded R & D Excellence award at Bharat Electronics Ltd. in 2009 and 2011. He is reviewer of various IEEE transactions, Elsevier & Springer journals. He has published more than 35 technical papers. His current Research Interest: Machine/Deep Learning, Computer Vision, Artificial Intelligence, Biometrics, and Cyber Security.

Summary:

Webinar :2
Date :17-07-2020
Topic : **Demystifying Deep Learning and Machine Learning**
Invited Speaker :**Dr. Kuldeep Singh, Department of ECE, MNIT Jaipur**
Participants attended the event :202

Outcome of The Event:

In this webinar, participants have learned about the Deep learning and machine Learning. Some of the highlights of the webinar are:

- Introduction about machine learning and deep learning and it's scope in daily life with suitable example. Also find out difference between machine learning and deep learning technology.
- Participants got a deeper sense of Machine Learning and Neural Networks and there proper use in near future.
- Instructor told about the scope and future of Machine Learning and Deep Learning and how users can connect with it, and some tips as how beginners can learn them effectively.
- Also provided an introduction towards supervised and unsupervised learning and learning about neural network.
- How actually deep learning model works and why the need of deep learning is came in today's world.
- Also, get knowledge about activation function, Image Processing and the over-fitting problem and their solutions. . This is a great session which provides the right path and guidelines for understating of ML and DL for the layman perspective.

Priya Gupta	Jaipur Engineering College and Research Center, Jaipur	No	No	5	No	Knowledge about deep learning	Every thing is good	MI
NIKHIL MITTAL	Jaipur Engineering College and Research Center, Jaipur	No	No	4	ITS GOOD	ABOUT DEEP LEARNING	GREAT SPEAKER	MACHINE LEARNING
Vaibhav Swami	Jaipur Engineering College and Research Center, Jaipur	No	No	5	This organisation is very good and it's very helpful to increase students knowledge.	I learned many new things about machine learning and this is helpful for me to know about more jobs and others.	The speaker content and knowledge sharing skills are amazing, it's great.	I recommend for AI or other Technology based webinar for future webinars.
Suman Sharma	SKIT, JAIPUR	Yes	No	4	No	NA	No	5g technology
Sagar gurnani	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Good speaker	Self improvement	.	.
Srashti Gupta	Jaipur Engineering College and Research Center, Jaipur	No	No	2	In further u will do better webinar	About machine learning	I don't like his delivery	Government job in Electronics
Pardeep Garg	JUIT Wagnaghat	No	No	5	Very well organized the seminar	Got to know the basics of Deep Learning.	Slides were not being shared properly.	AI
Bhawna Kalra	Arya institute of engineering and technology jaipur	No	No	5	Good management	Knowledge about machine learning	Nicely explained	Microstrip patch antenna designing
Summaiyya Saleem	University of Rajasthan, Jaipur	No	No	4	Not any	About deep learning and its various application fields.	Everything was good in terms of knowledge sharing and content.	Reconfigurable MIMO antennas for various wireless applications.

Deepak Shankhala	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Good	Yes	Good contents	Algorithm with mathematics tool
Tushar katariya	Jaipur Engineering College and Research Center, Jaipur	No	No	5	I like this session	I got so much motivated	Well the seminar was great	It's your choice
Dr. Pankaj Dadheech	Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur	Yes	Yes	5	Excellent	Machine Learning and Deep Learning	Excellent Delivery & Very Informative	Blockchain
Ankita Sharma	Bal Krishna Institute of Technology, Kota	No	No	5	No	About deep learning and neural networks	No it's fine	Introduction of SPSS software
krishna chauhan	MNIT Jaipur	Yes	No	3	for whole hour the screen was not shared.	That was Basic , but nice description in optimum time.	5/5	CNN
Shailendra Shrivastava	Jaipur Engineering College and Research Center, Jaipur	No	No	4	This is very nice.	I have learn too much knowledge about the deep learning.	It's very nice.	More wevinars on machine learning.
Mahipal Jadeja	Malaviya National Institute of Technology (MNIT)	No	No	5	Very well organised overall.	All the key aspects related to deep learning.	Excellent presentation.	Machine learning and Artificial intelligence
ASIF SAYEED KHAN	Mahila Engineering College, Ajmer	No	No	4	Good topic	About the scope of ML and DL	Very Informative Session	5G air interface
karrena khan	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Very informative session.	I learned a lot about ML and DL and a lot of resources like books were shared which would help us further.	A great presentation and easy and understandable way of speaking.	Web and graphics designing

Sandeep Kumar Dotya	Jaipur Engineering College and Research Center, Jaipur	No	No	4	All session is very informative.	Machine learning	Good knowledge	Machine coding
Ronak Mathur	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Nothing	How deep learning initialise modern world	Deep Learning computing ability he told like image pixels	Machine learning
Raghav Tiwari	Jaipur Engineering College and Research Center, Jaipur	No	No	5	The session was great	I have learn some of the great architectures of DEEP learning	The session was great	CPU processor
RAJAN DHAWAN	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Good work by the organizers	How does the Machine learning & Deep learning works.	Knowledge sharing	Artificial intelligence
Niranjan Kumar Meena	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Thanks to all for providing such webinar for all	I learnt more from this webinar it's provide new ideas to me for my future plan	The webinar was awesome	New more things about machine learning
Meenakshi Bhardwaj	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Yes the intnologue session is awesome. The thoughts are awesome and we students are inspired form u.	We got inspired by your thoughts.o gained knowledge in machine learning and highlight our thoughts.	No feedback	U can talk about the other projects like how we give our best in Entrepreneur ship
Anjali	Indus international university distt. Una	No	No	5	Very good	Learning experience.	Nice divery	Sterography projection
YOJANA JAIMINI	Jaipur Engineering College and Research Center, Jaipur	No	No	5	No	Interactive session	No	Advancement in technology
Rahul lodha	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Good	Some new things	Good	Any good topic

NEERAJ DHAYAL	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Organising a webinar like this is a golden opportunity towards deep learning in electronic and communication. So much thanks for it.	I have a better understanding of machine learning and its proper use in my future	That's an excellent opportunity to share your knowledge with us in case lockdown where studies are freezed.	How can we increase output through electronics components.

Department of Electronics & Communication Engineering
 Jaipur Engineering College and Research Centre, Jaipur
 In association with
 IEEE Antenna & Propagation Society (APS) Chapter - Jaipur
 IEEE Rajasthan Subsection & OSA Student Chapter-JECRC

Presents
 One Day Webinar on
"Demystifying Machine Learning and Deep Learning"
 July 17, 2020

Resource Person
Dr. Kuldeep Singh
 (Ex-Scientist, BEL INDIA)
 Assistant Professor
 MNIT JAIPUR

Timing
4-5 PM

E-certificate will be awarded to the participants who attend the webinar.

4-5 PM, Friday, July 17, 2020
 Platform: Google Meet

No Registration fee required.
 Registration Link:

Webinar Report

Webinar
on

"ERADICATING APPREHENSIONS ABOUT CAREER AMID COVID-19 CRISIS"

Department of Electronics and Communication Engineering, Jaipur Engineering College & Research Center (JECRC), Jaipur has organized a WEBINAR on "**Eradicating Apprehensions about Career Amid COVID-19 Crisis**", in association with IEEE Rajasthan Subsection, IETE Student Chapter & OSA Student Chapter-JECRC on 29/07/2020 from 12:00 PM to 2.00 PM through GOOGLE MEET. All registered participants received E-certificates after the end of session and submitted feedback form. Registration for this event was done by using goggle form and it is free for the JECRC as well as outside participants. The event was coordinated by **Dr. Sandeep Vyas**, HoD, ECE, department, JECRC Jaipur and moderated by **Mr. Jaiverdhan**, Assistant Professor, ECE department, JECRC Jaipur. The invited speaker for this event is **Mr. A. P Singh, Joint Director, MADE EASY Group**. The brief bio of speaker is attached as follow.

About the Speaker:

Mr. A. P. Singh is well known educationist and very energetic personality. He is Joint Director of MADE EASY Group. He is senior faculty with niche teaching experience of 15 years in various competitive exams. He is the prominent member of interview panel and has trained numerous aspirants to face the interviews of PSUs, MNCs, UPSC Engineering and Civil services Examinations.

He is Role model to many aspirants and has inspired numerous aspirants to achieve the success. Students call him Google because of his unmatched knowledge and eloquent speaking capabilities.

He has conducted several carrier guidance seminars in IITs, NITs and other reputed engineering institutes across the country.

Summary:

Webinar :3
 Date :29-07-2020
 Topic : **Eradicating Apprehensions about Career Amid COVID-19 Crisis**
 Invited Speaker : **Mr. A. P Singh, Joint Director, MADE EASY Group**
 Participants attended the event :140

Outcome of The Event:

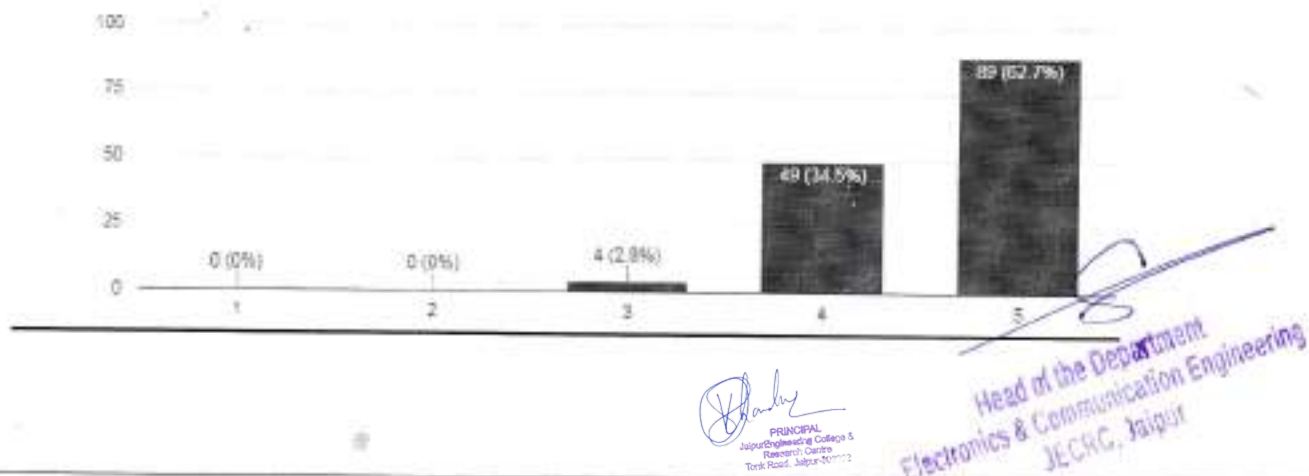

In this webinar, participants have learned about the different carrier opportunity like GATE, UPSC Engineering Services Examination, UPSC Forest Service Examination, and other PSUs & government sector examination after B.Tech and How to grab these opportunity in this COVID pandemic situation. Motto of this webinar is to encourage students to achieve their dreams through proper guidance & positive vibes. Some of the highlights of the webinar are:

- In & out of GATE & other competitive exams
- Various career opportunities
- Productive utilization of Covid period for academics & competitive exams
- Do's & don't to become a topper
- Why and why not approach?
- Many arrows in one quiver
- Art of making effective notes
- How to face different phases of recruitment (Written Test/GD/Interview)

Feedback from participants:

Webinar Report

Webinar
on

"IMPERATIVE IDEAS AND CHALLENGES FOR THE PROFESSION DEVELOPMENT IN INDUSTRIES AND TERTIARY EDUCATION"

Department of Electronics and Communication Engineering, Jaipur Engineering College & Research Center (JECRC), Jaipur and BYJU's Career Labs has organized a WEBINAR on "Imperative ideas and challenges for the profession development in Industries and Tertiary Education", in association with IEEE Rajasthan Subsection, IETE Student Chapter & OSA Student Chapter-JECRC on 14/08/2020 from 04:00 PM to 5.30 PM through GoTo Webinar platform. All registered participants received E-certificates after the end of session and submitted feedback form. Registration for this event was done by using GoTo webinar registration tool and it is free for the JECRC as well as outside participants. The event was coordinated by **Dr. Sandeep Vyas**, HoD, ECE, department, JECRC Jaipur and **Mr. Jaiverdhan**, Assistant Professor, ECE department, JECRC Jaipur (**moderator**).

The invited speaker for this event is **Mr. Abhishek Gupta -Head of Speakers & Manager-Strategic Partnership, (BYJUS Career Labs)**.

Summary:

Webinar :4
Date :14-08-2020
Topic :Imperative ideas and challenges for the profession development
in Industries and Tertiary Education
Invited Speaker :**Mr. Abhishek Gupta -Head of Speakers (BYJUS Career Labs)**
Participants attended the event :140

PRINCIPAL

JECRC, Jaipur

Outcome of The Event:

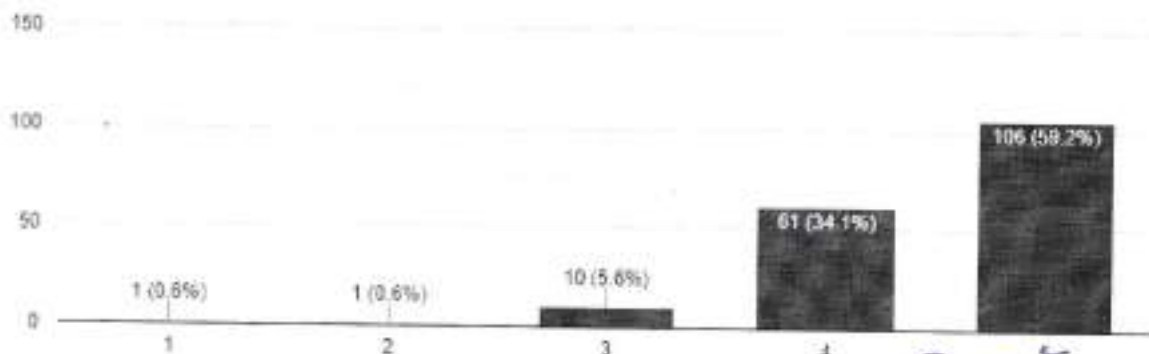

In this webinar, participants have learned about the different carrier opportunity and eminent institutes for the higher education in India and outside of India and How to grab these opportunity in this COVID pandemic situation. Motto of this webinar is to encourage students to achieve their dreams through proper guidance & positive vibes. Participants get help to craft their career journey over a wide range of preparatory programs for national and international entrance exams, as well as Admissions Consulting Services for Graduate and Business Schools, both abroad and in India. Some of the highlights of the webinar are:

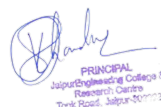

- In & out of competitive exams
- Various career opportunities
- Productive utilization of Covid period for academics & competitive exams
- Why and why not approach?
- Many arrows in one quiver
- Art of making effective notes
- How to face different phases of recruitment (Written Test/GD/Interview)
- How to get into Fortune 500 Companies
- Profile Building for Higher Education
- Technical Profile boost for Placements
- Top Masters with 100% Scholarships

Feedback from participants:

TIME MANAGEMENT TIPS FOR IAS EXAM

- 01** **FOCUS ON PRACTICE**
 Once you have prepared the content, it is time to practice. Practice is the key to success in the exam. Practice helps you to identify your strengths and weaknesses. Practice also helps you to manage your time effectively.
- 02** **PLAN YOUR STUDY SCHEDULE**
 Plan your study schedule in advance. Make a list of topics to be studied and allocate time to each topic. Stick to the schedule as much as possible.
- 03** **DO NOT OVERSTRESS YOURSELF**
 Do not over-stress yourself. Take regular breaks and exercise. This will help you to stay fresh and focused.
- 04** **REVIEW YOUR WORK**
 Review your work regularly. This will help you to identify your mistakes and correct them. It will also help you to reinforce your learning.
- 05** **TAKE CARE OF YOURSELF**
 Take care of your health. Get enough sleep, eat healthy food, and exercise regularly. This will help you to perform better in the exam.

- Prepare for the exam and up-to-date revision for important topics.
- Give 15-20 minutes per topic with detailed penmanship feedback.
- Practice for the preliminary - mock test at the same time with detailed feedback.
- Make 10-15 minutes extra revision and learning important topics.
- To get the best results in the exam, you should practice the exam pattern.
- Daily Mock Analysis - Give your performance a full review.
- Some topics are added for the exam. Practice them - answer and make a list. Check the marking table for the details.

THANK YOU

Company Profile : Although rapidly developing, the CSR ecosystem still faces information asymmetry and knowledge gaps, which prevents like-minded people from identifying areas of collaborations, and limits efforts towards social good. This is where CSRBOX comes into the picture. CSRBOX is India's leading CSR knowledge and impact intelligence driven partnerships platform for the development community. At CSRBOX, we are committed to the idea of advancing social impact and change. Whether you are a Donor agency looking to invest in transformative and sustainable projects or an implementation leader dedicated to accomplish your organization's goals, CSRBOX can help you achieve your objectives. With years of experience in working on social development projects with nonprofits, corporate and social enterprises, we excel in catalyzing the

vibrant social transformation movement in India by driving collaborations and partnerships for good. With research, strategy and designing tailored programs in the CSR ecosystem, we help our clients solve their most challenging issues.

Company Contact : 9911602539
E-mail: skillsbuild@csrbox.org

Departmental Organizer: Mr. Abhishek Dixit (Assistant Professor, CSE Deptt.)

Session Description : The session started at 10:30 AM. Initially the moderator Mr. Abhishek Dixit welcomed the guest, HoDs and other faculty members who have joined the call and set the tone by introducing the speaker and informing the audience about the session. Mr. Manoviraj started the session with PPT by introducing about “how to build resume”, The speaker also discussed Do’s and Don’t’s while preparing a resume and also discussed many practical examples of what to do and what not to do in an interview i.e. interview etiquettes. The session went for around 1.5 hours where in the end speaker answered all the queries raised by the students. In the end, Dr. Sanjay Gour (HoD, CSE) has given vote of thanks and requested the speaker to organize more sessions in this category so that students get benefitted.

Audience : IV & VI Sem Students of JECRC (All Branches)

SPEAKER'S PROFILE

Expert Talk on **“ENTREPRENEURSHIP AS CARRIER OPPORTUNITY”** on 7th may 2021 from 3:30 pm to 5:00 pm.

MS. SHUBHRA SRIVASTAVA

Shubhra Srivastava is the Co-founder and CEO of GaragePlug, a cloud-based easy-to-use software providing an end to end digital platform for auto repair workshops and detailing centers. Shubhra started her career as a software developer in 1999 and worked for almost 18+ years in various multinational companies in different roles, starting as a developer and eventually leading various Global Programs and platform launches. She has worked in various domains such as telecom, engineering, cyber security, and instrumentation. In her 18 years of experience, she has learned the art of problem-solving and developing strong teams and organizations.

Shubhra's journey with GaragePlug started in 2018 with little knowledge about business and industry, but she is now very confident about their business and the value they are generating, helping hundreds of automotive workshops to manage their entire business and customer journey on a single mobile-based platform.

Research Centre
Tonk Road, Jaipur-302022

SESSION'S DETAILS

(7/05/2021 from 3:30 PM to 5:00 PM)

The session started at 3:30 pm by welcoming the guest “**Ms. Shubhra**” (Co-founder of Garage plug). She started the session by discussing about a famous quote on entrepreneurship that “**Entrepreneurship is about being able to face failure, manage failure and succeed after failing**”. Proceeding further participants were asked to raise their queries so that all their doubts could be covered up through the entire session. Later she briefly described about their startup and begin to discuss their exciting journey to successfully launch the product.

“**Garage Plug**” is a cloud-based easy-to-use software for 2W & 4W Auto Repair and Detailing service centers to grow & manage your business. It was started by **Mr. Rohit, Mr. Ashish** and **Ms. Shubhra** in 2017.

Who we are?

- GaragePlug is a SaaS platform for automotive aftersales market.
- Started by Rohit, Ashish and Shubhra in 2017
- Acquired 450+ B2B customers in 12+ countries
- Growing 3X YoY

She further introduced the “**PRINCIPLE OF EFFECTUATION**” (BIRD IN HAND)

When expert entrepreneurs seek to build a start with their means. These means can be in three categories:

-)] **WHO I AM** –my traits, tastes and abilities
-)] **WHAT I KNOW** – my education, my training , expertise and experience
-)] **WHO I KNOW** – my social and professional network

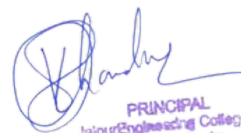

Then she shared the strategy to be followed to launch a successful startup, through her own experience.

- ❖ **FOUNDER FIT:** One of the most important assets to have in an early-stage startup is founder-market fit. Founder-market fit is an innate, unfair advantage that sets founders apart from their competitors. Accelerators and Early Stage VCs often look for it when evaluating founders for Potential investments.

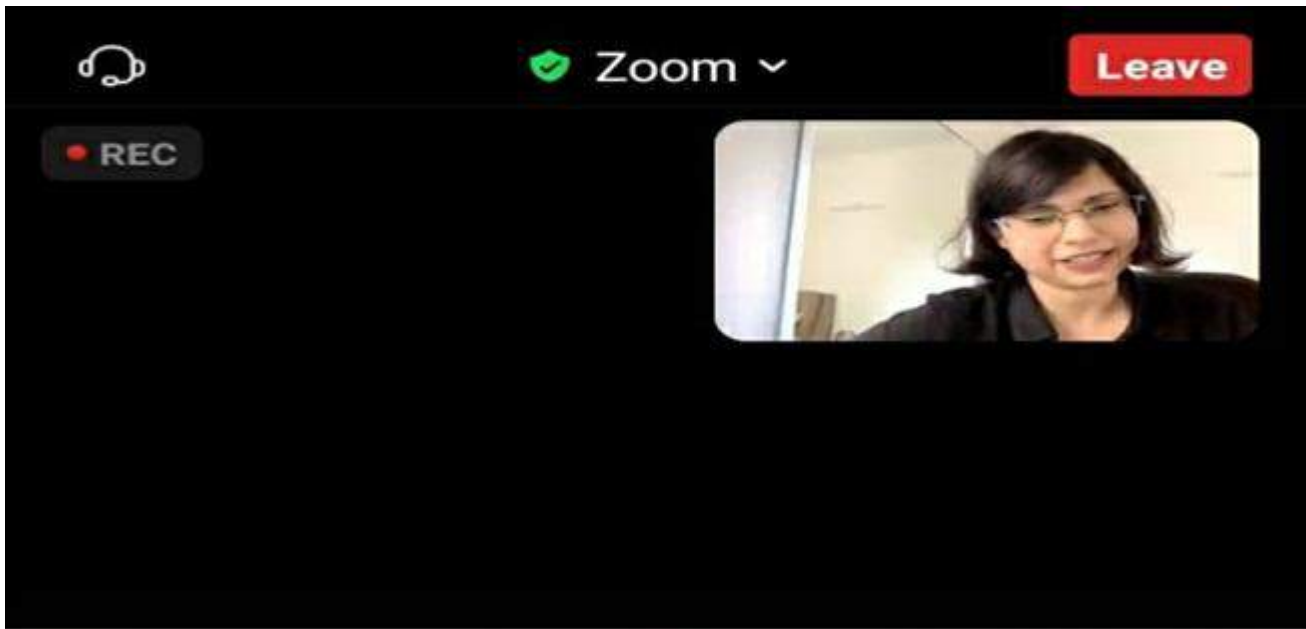

- ❖ **IDENTIFYING THE PROBLEM:** A problem can be regarded as a difference between the actual situation and the desired situation. This means that in order to identify a problem the team must know where it is meant to be and have a clear understanding of where it currently is in relation to the perceived problem.

The following steps can help to identify the problem:

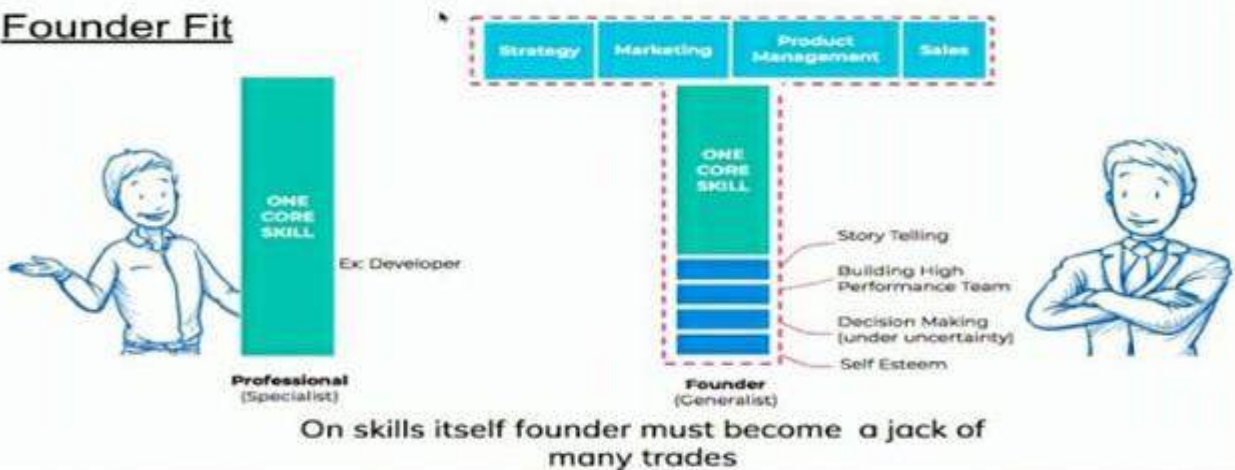

-)] Talk to different people of owner of product
-)] Understand top pain points
-)] Understand the impact of problem
-)] Analyze the market potential

Type text here

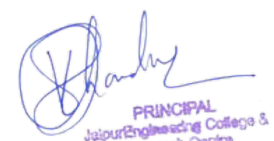

Founder Fit

- ❖ **Build MVP (Minimum Viable Product):** MVP is a process of building a new product with core functionalities and important, minimum features, to test how the target audience would respond. Then, the building of the actual product takes place with the full set of features after a series of iterations, with feedback from early adopters.

In middle of the seminar she made a strong statement that **“The features reside in product but value resides in customers mind”** with the help of real life examples.

 PRINCIPAL
 Jaipur Engineering College &
 Research Centre
 Tonk Road, Jaipur-302022

Examples and the story of their company was really motivating and participants were overwhelmed by it.

She also explained about what a product is a combination of: Basically it is a combination of high value problem, resonates with a group of people, when hired gives benefits or not, near standard price tag and easy to replicate on per unit cost.

Product is combination of

High Value Problem

Which is usually captured Implicitly in a short keyword

Resonates with a group of people

Called Intended Customer Persona

When hired gives benefits which translates to Value for one Customer Persona

Near Standard Price Tag

Easy to Replicate on per unit cost

PRINCIPAL
Jaipur Engineering College &
Research Centre
Tonk Road, Jaipur-302022

In the later half of the session she discussed about **ICP (Ideal customer profile)**: An ideal customer is ready, willing and able to purchase your solution. Beyond that, they're also likely to experience extreme success with your product, maximize your profitability, provide you with referrals, and even become brand advocates.

The best way to develop an accurate ICP is to compare and analyse existing customers who are getting immense value from your solution.

First, identify those who are not just using your product, but who love the product and are getting more value from it than your average user. Try to come up with a list of ten super users, but as long as you have a few this will work.

Now, when the product is ready the most important thing is to sell it and go to the market so the speaker gave a brief about this technique too.

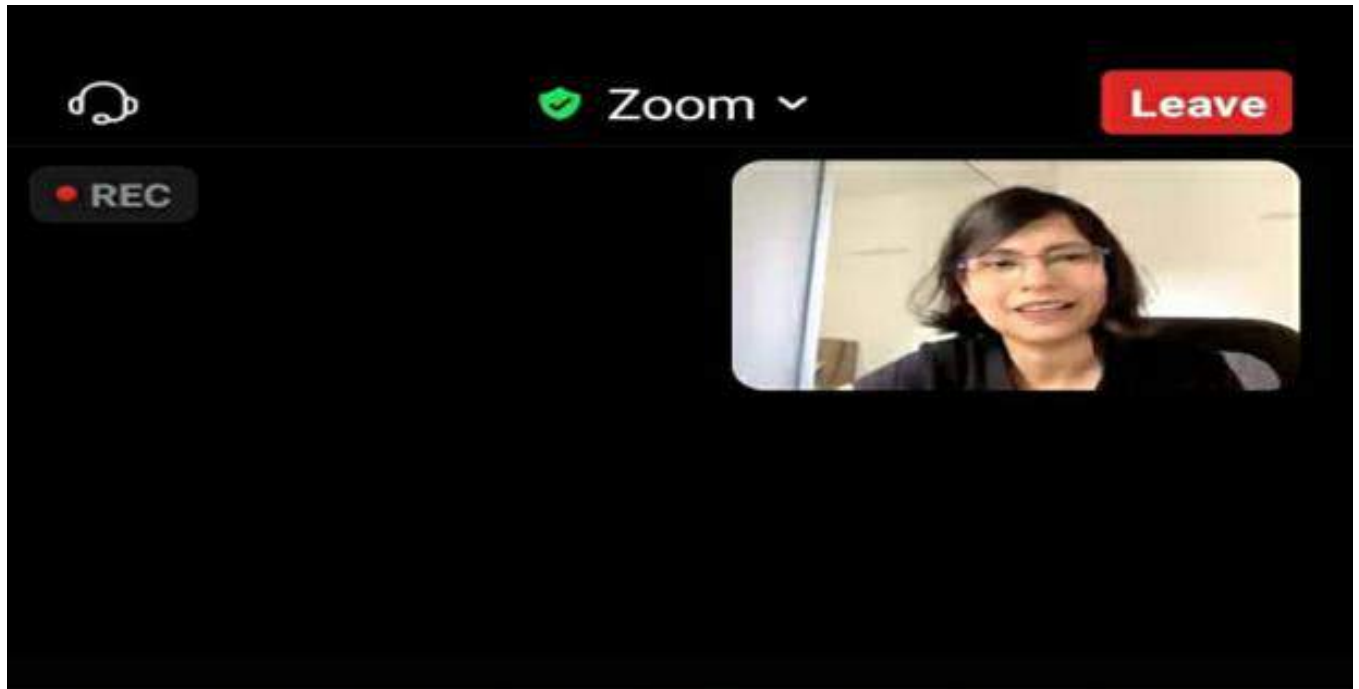

Start selling – Go to market : The challenge becomes how to sell your product and create a sustainable revenue stream, so that you can further develop your product offerings, build your infrastructure, repay your investors, and pay yourself. Figuring out a go-to-market approach is no trivial exercise — it separates the companies that will be successful and sustainable from those that won't.

As we moved towards the end of the session, she discussed about the **GTM STRATEGY AND CHALLENGES FACED IN IT.**

Creating a GTM strategy involves clarifying plans and directions to enter a new market and reach ultimate business growth milestones. The challenges faced while strategizing a Go-to-Market plan revolve around the following factors:

- J) **Customers:** They are a crucial factor to consider while building a GTM strategy. Determining your initial customers, create effective tactics to deliver excellent customer experience. This will help you work out the best approach for engaging different customer types, gain loyal customers and accelerate product purchase.

- J) **Channels:** Measure up to the ideas and vision of your team to work collectively to launch a new offering with an impactful message. Your workforce collaborating with each other across various channels is a key factor to consider when overcoming the challenges in the primitive stages of your GTM strategy.
- J) **Competitors:** Conduct specific analysis like PESTLE and SWOT to understand your competitors and their performance in your targeted market. This will help you find any market gap and exploit your competitors' weaknesses in the right segment.

GTM at GaragePlug

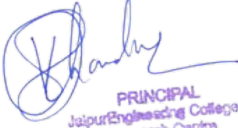

- Selection of Geography
- Ideal Customer Persona
- Early Adopters
- Marketing Channel

"Believe in your early customers. They will tell you what to do :-)"

The session concluded by giving vote of thanks to our guest of honor.

The entire session was very interactive and fruitful for student. We learnt a lot about Entrepreneurship. Overall it was an amazing session.
