EXPERT TALK
(Department of Electronics and Communication)**

Topic: Block Chain Technology

Speaker: Dr. Rajiv Mathur, CTO, Chainvine Ltd.

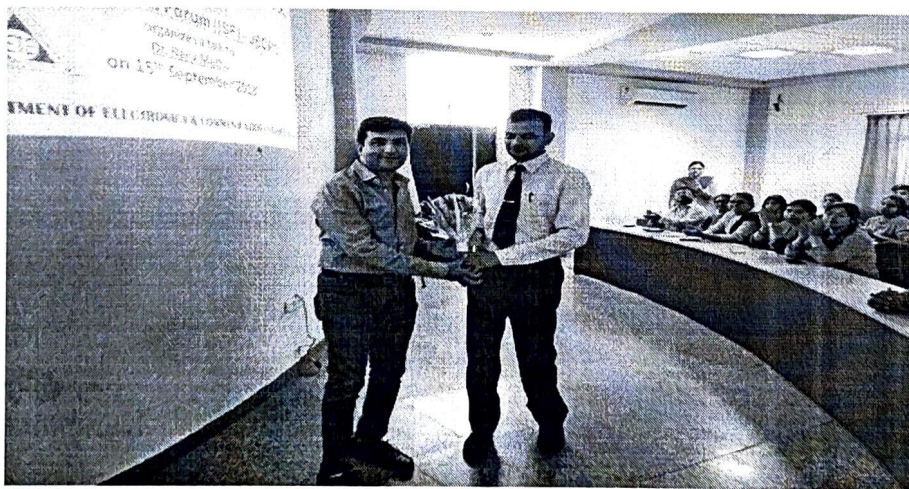

Organised by: Electronica-the technical society

Date and Time: 15.09.2018 at 10:30am

Venue: CS-401 Seminar Hall

On the occasion of Engineer's Day, an expert talk on **Block Chain Technology** was held on 15th September, 2018. The expert talk was organized to provide the students with an opportunity to learn about it and get a head start in Block Chain, which is an emerging technology in the field of cyber law.

The talk started with a welcome address by Ms. Neha Singh who introduced Dr. Rajiv Mathur and welcomed him with a bouquet. Then he was invited to the stage to begin the talk.

Guest Profile:

Dr. Mathur is the member of board and CTO at Chainvine Ltd., a Block Chain Solution Company based in London and Stockholm.

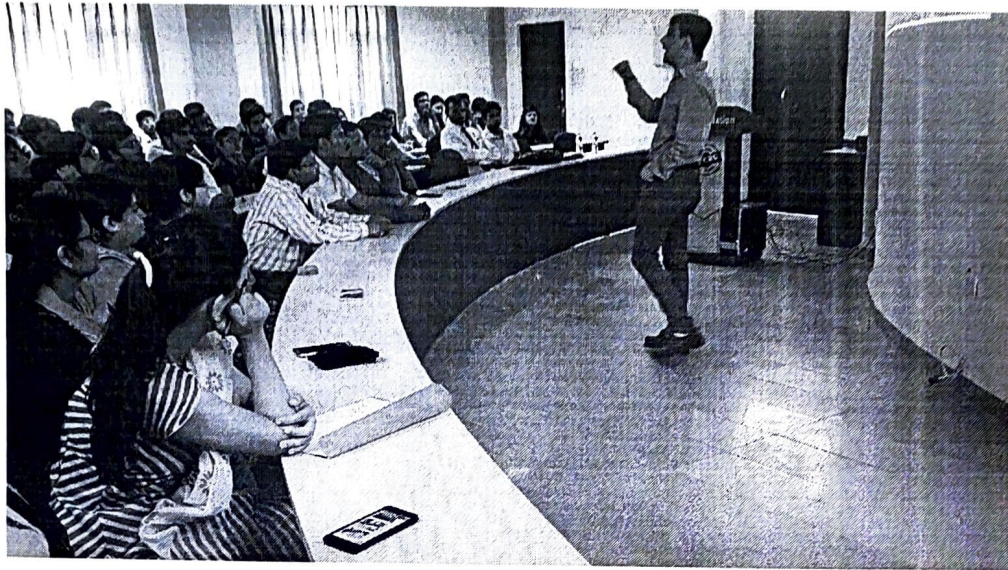

He is the co-founder and Director of SP2P Limited, an innovative Fintech company. SP2P is regulated and registered by the Financial Conduct Authority in the UK.

He is also the Director of Mobile and Wireless Associates, a consulting and Software Development Company.

The session was then continued by Dr. Mathur who began with the inspiring story of how he started his career and became successful. Then he gave an introduction to what Block Chain is and the importance of the same in the near future.

Following this, he shed light on how the system came to be and the various benefits and drawbacks of using BlockChain. He further provided information about how the technology is being used in the crypto currency Bitcoin and how more and more industries have started using the technology to reach greater heights.

The session ended with Dr. Mathur answering various questions put up by the students. This was followed by presenting a memento to Dr. Mathur as a way of thanking him to take time from his busy schedule to educate the students about BlockChain.
