**Head of the Department**  
**Mechanical Engineering**  
**JECRC, Jaipur**

### PREAMBLE

A Webinar on 'Strategy to Crack ESE, GATE & Other Engineering Competitive Exams' was organized by the Jaipur Engineering college and Research Centre, Jaipur on dated 8<sup>th</sup> January 2021, at 02:00pm, via Live session on YOUTUBE. Around 1448 students participated in this program.

The objective of the session was to provide information regarding the strategy to crack ESE, GATE & other engineering competitive examinations.

In this modern era, competition has reached at its apex and is continuously increasing day by day. Competition is now turning into a vast and destructible forest fire in which everyone is jumping in order to prove themselves and to stand apart from the crowd. Everyone is try to give their best, but in order giving the best they are suffering with extreme depression and anxiety which is ultimately leading them to the path of destruction "SELF DESTRUCTION".

Therefore, to get a control over their thoughts and to get a right direction on which they can focus, they need someone who can guide them to achieve their goals in a quiet good manner and in a limited time period without some sort of depression and failure.

Head of the Department  
Mechanical Engineering  
JECRC, Jaipur

## ABOUT THE SESSION

Jaipur Engineering College and Research Centre organized a webinar on Strategy to Crack ESE, GATE & Other Engineering Competitive Exams for the students on 08 January 2021. The Speaker for the webinar was Mr. Sunil Kumar Tiwari, Senior Faculty Member and Motivational Speaker MADE EASY Group.

The talk started on discussing the effects of **COVID-19** on entire economy in the present Scenario and what will be its future in the Private Sector and Government Sector. Mr. Sunil gave some figures that how economy has been poorly affected by COVID -19 and suggested some methods that what should be done to come out of it.

Head of the Department  
Mechanical Engineering  
JECRC, Jaipur

Then he gave some figures of placement in government sector and private sector. Further, Mr. Sunil discussed the scope of engineers in different exams. Also, discussed the age limits for different competitive exams and many more things.

Academic year-2020-  
21

It was all about giving students the methodologies and information for their career and providing them a path to crack the exams throwing light on making timetables and learning and working strategies.

Further, the discussion extended to the information regarding the subject content tips to crack working detailing on exams like GATE, UPSC, Bank PO, SSC, RPSC, BPSC UPPSC and certain exams for MBA like CAT and characteristics of learning outcomes.

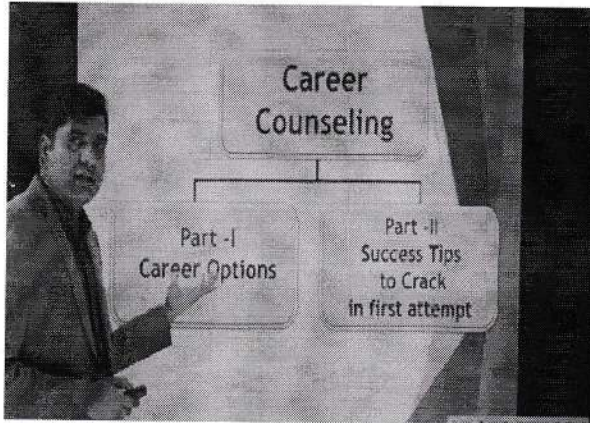

Head of the Department  
Mechanical Engineering  
JECRC, Jaipur

Mr. Suneel also emphasized to choose the study material wisely and group studies also helps a lot because the group of students with whom you are studying will help to solve the problems' more effectively , making of own notes study with concentration regular exercise and evaluate yourself were some of the tips given to students.

The speaker also motivated students in between the session by talking them on failures and success and of the ways to overcome on failures. He also taught students to work on Self Introspection, because when a person knows about his failures and strengths and threats he will improvise himself and can definitely work on the areas where he needs to work and move towards success, the speaker also took examples from the Epic Geeta which tells for constant effort and Karma, He also gave examples of Arjun.

  
Head of the Department  
Mechanical Engineering  
JECRC, Jaipur

At last Mr. Sunil ended the session with the beautiful lines

**“I am not failed my success is postponed”.**

At last he also provided students’ time to put up there queries regarding the talk or any questions for different exams, the students put their doubts and they were answered smartly by Mr. Sunil.

## OUTCOME OF THE EVENT

The participants got useful information about the Different and diversified sector of career after graduation. They also get to know about the different strategies for cracking the toughest competitive exams in this modern era of technology with the combined form of **“HARDWORK AND SMART WORK”**.

## Webinar Report

Webinar  
on

### **"DEMYSTIFYING DEEP LEARNING AND MACHINE LEARNING"**

Department of Electronics and Communication Engineering, Jaipur Engineering College & Research Center (JECRC), Jaipur has organized a WEBINAR on "**Demystifying Deep Learning and Machine Learning**", in association with IEEE Rajasthan Subsection, & OSA Student Chapter-JECRC on 17/07/2020 from 04:00 PM to 5.00 PM through GOOGLE MEET. All registered participants received E-certificates after the end of session and submitted feedback form. Registration for this event was done by using goggle form and it is free for the JECRC as well as outside participants. The event coordinator was **Dr. Sandeep Vyas**, HOD ECE department and moderator was **Mr. Jaiverdhan**, Assistant Professor, ECE department, JECRC Jaipur.

The invited speaker for this event is **Dr. Kuldeep Singh**, *Department of ECE, MNIT Jaipur(Ex-Scientist, BEL INDIA)*. The brief bio of speaker is attached as follow.

#### About the Speaker:

Dr. Kuldeep Singh has received his Ph.D. degree in Computer Vision from Delhi Technological University, New Delhi, India and M.Tech. degree in Signal Processing from Netaji Subhash Institute of Technology, New Delhi. He has worked as postdoctoral fellow at University of Alberta, Canada, where he was involved in development of deep learning based functional prototype for agriculture applications. Before joining MNIT, he has worked at Central Research Laboratory of Bharat Electronics Ltd. (BEL) Ghaziabad as Scientist from Jan 2007 to Mar 2019. During his stint at BEL, he has worked on various projects of national importance. He was involved in software development of various C4I systems for Indian & foreign defense forces. He has been awarded R & D Excellence award at Bharat Electronics Ltd. in 2009 and 2011. He is reviewer of various IEEE transactions, Elsevier & Springer journals. He has published more than 35 technical papers. His current Research Interest: Machine/Deep Learning, Computer Vision, Artificial Intelligence, Biometrics, and Cyber Security.

**Summary:**

Webinar	:2
Date	:17-07-2020
Topic	: <b>Demystifying Deep Learning and Machine Learning</b>
Invited Speaker	: <b>Dr. Kuldeep Singh, Department of ECE, MNIT Jaipur</b>
Participants attended the event	:202

**Outcome of The Event:**

In this webinar, participants have learned about the Deep learning and machine Learning. Some of the highlights of the webinar are:

- Introduction about machine learning and deep learning and it's scope in daily life with suitable example. Also find out difference between machine learning and deep learning technology.
- Participants got a deeper sense of Machine Learning and Neural Networks and there proper use in near future.
- Instructor told about the scope and future of Machine Learning and Deep Learning and how users can connect with it, and some tips as how beginners can learn them effectively.
- Also provided an introduction towards supervised and unsupervised learning and learning about neural network.
- How actually deep learning model works and why the need of deep learning is came in today's world.
- Also, get knowledge about activation function, Image Processing and the over-fitting problem and their solutions. . This is a great session which provides the right path and guidelines for understating of ML and DL for the layman perspective.

**Academic year-2020-  
21**

Deepak Shankhala	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Good	Yes	Good contents	Algorithm with mathematics tool
Tushar katariya	Jaipur Engineering College and Research Center, Jaipur	No	No	5	I like this session	I got so much motivated	Well the seminar was great	It's your choice
Dr. Pankaj Dadheech	Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur	Yes	Yes	5	Excellent	Machine Learning and Deep Learning	Excellent Delivery & Very Informative	Blockchain
Ankita Sharma	Bal Krishna Institute of Technology, Kota	No	No	5	No	About deep learning and neural networks	No it's fine	Introduction of SPSS software
krishna chauhan	MNIT Jaipur	Yes	No	3	for whole hour the screen was not shared.	That was Basic , but nice description in optimum time.	5/5	CNN
Shailendra Shrivastava	Jaipur Engineering College and Research Center, Jaipur	No	No	4	This is very nice.	I have learn too much knowledge about the deep learning.	It's very nice.	More wevinars on machine learning.
Mahipal Jadeja	Malaviya National Institute of Technology (MNIT)	No	No	5	Very well organised overall.	All the key aspects related to deep learning.	Excellent presentation.	Machine learning and Artificial intelligence
ASIF SAYEED KHAN	Mahila Engineering College, Ajmer	No	No	4	Good topic	About the scope of ML and DL	Very Informative Session	5G air interface
kareena khan	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Very informative session.	I learned a lot about ML and DL and a lot of resources like books were shared which would help us further.	A great presentation and easy and understandable way of speaking.	Web and graphics designing

Sandeep Kumar Dotya	Jaipur Engineering College and Research Center, Jaipur	No	No	4	All session is very informative.	Machine learning	Good knowledge	Machine coding
Ronak Mathur	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Nothing	How deep learning initialise modern world	Deep Learning computing ability he told like image pixels	Machine learning
Raghav Tiwari	Jaipur Engineering College and Research Center, Jaipur	No	No	5	The session was great	I have learn some of the great architectures of DEEP learning	The session was great	CPU processor
RAJAN DHAWAN	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Good work by the organizers	How does the Machine learning & Deep learning works.	Knowledge sharing	Artificial intelligence
Niranjan Kumar Meena	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Thanks to all for providing such webinar for all	I learnt more from this webinar it's provide new ideas to me for my future plan	The webinar was awesome	New more things about machine learning
Meenakshi Bhardwaj	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Yes the innologue session is awesome. The thoughts are awesome and we students are inspired form u.	We got inspired by your thoughts.o gained knowledge in machine learning and highlight our thoughts.	No feedback	U can talk about the other projects like how we give our best in Entrepreneur ship
Anjali	Indus international university distt. Una	No	No	5	Very good	Learning experience.	Nice divery	Sterography projection
YOJANA JAIMINI	Jaipur Engineering College and Research Center, Jaipur	No	No	5	No	Interactive session	No	Advancement in technology
Rahul lodha	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Good	Some new things	Good	Any good topic

Shubham Sharma	Jaipur Engineering College and Research Center, Jaipur	No	No	5	Timing of the webinar could be improved like 12pm to 2pm	what why and how of deep learning. overfitting neural network training perceptron	everything was perfect.	Universe
PRAJWAL.R	CMR UNIVERSITY	No	No	5	Conduct webinar on cloud computing	Deep learning good session	Good session	Cloud computing
Asmit Kumar	Jaipur Engineering College and Research Center, Jaipur	Yes	No	4	overall nice	new engineering reforms	no all good	more like this
Chathurya Krishna K S	CMR university Bangalore	No	No	5	No	Machine learning	No	Embedded systems
Tejeswini R Kolekar	CMR University	No	No	4	Information	Learnt about Deep learning	Very good presentation	No
Akshat sharma	Jaipur Engineering College and Research Center, Jaipur	No	No	4	Yeah.. it was a good session Learn a lot.	How to develop more skills in specified areas.	It was totally a time worthy session.	Maybe iot related
Ankit Kumar	Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur	Yes	Yes	5	Good	Deep Learning & Machine learning	Good	IoT
Pratik Badagavi	Aakruthi3D Pvt Ltd	No	No	4	The topics were well covered.	Basics of Deep Learning like perception, training a neural network for classification of a image etc.	The speaker has a high knowledge about the said domain	Using AI, ML for solving current technological problems or other problems where AI & ML can be used

### Webinar Poster

July  
17,  
2020

Department of Electronics & Communication Engineering  
Jaipur Engineering College and Research Centre, Jaipur  
In association with  
IEEE Antenna & Propagation Society (APS) Chapter – Jaipur  
IEEE Rajasthan Subsection & OSA Student Chapter-JECRC

Presents  
One Day Webinar on  
**“Demystifying Machine Learning and Deep Learning”**  
July 17, 2020

**Resource Person**  
**Dr. Kuldeep Singh**  
(Ex-Scientist, BEL INDIA)  
Assistant Professor  
MNIT JAIPUR

Timing  
4-5 PM

---

*E-certificate will be awarded to the participants who attend the webinar.*

4-5 PM, Friday, July 17, 2020  
Platform: Google Meet

**No Registration fee required.**  
Registration Link:

## Webinar Report

Webinar  
on

### **"ERADICATING APPREHENSIONS ABOUT CAREER AMID COVID-19 CRISIS"**

Department of Electronics and Communication Engineering, Jaipur Engineering College & Research Center (JECRC), Jaipur has organized a WEBINAR on "**Eradicating Apprehensions about Career Amid COVID-19 Crisis**", in association with IEEE Rajasthan Subsection, IETE Student Chapter & OSA Student Chapter-JECRC on 29/07/2020 from 12:00 PM to 2.00 PM through GOOGLE MEET. All registered participants received E-certificates after the end of session and submitted feedback form. Registration for this event was done by using goggle form and it is free for the JECRC as well as outside participants. The event was coordinated by **Dr. Sandeep Vyas**, HoD, ECE, department, JECRC Jaipur and moderated by **Mr. Jaiverdhan**, Assistant Professor, ECE department, JECRC Jaipur. The invited speaker for this event is **Mr. A. P Singh, Joint Director, MADE EASY Group**. The brief bio of speaker is attached as follow.

#### **About the Speaker:**

Mr. A. P. Singh is well known educationist and very energetic personality. He is Joint Director of MADE EASY Group. He is senior faculty with niche teaching experience of 15 years in various competitive exams. He is the prominent member of interview panel and has trained numerous aspirants to face the interviews of PSUs, MNCs, UPSC Engineering and Civil services Examinations.

He is Role model to many aspirants and has inspired numerous aspirants to achieve the success. Students call him Google because of his unmatched knowledge and eloquent speaking capabilities.

He has conducted several carrier guidance seminars in IITs, NITs and other reputed engineering institutes across the country.

### Summary:

Webinar :3  
Date :29-07-2020  
Topic : **Eradicating Apprehensions about Career Amid COVID-19 Crisis**  
Invited Speaker : **Mr. A. P Singh, Joint Director, MADE EASY Group**  
Participants attended the event :140

### Outcome of The Event:

In this webinar, participants have learned about the different carrier opportunity like GATE, UPSC Engineering Services Examination, UPSC Forest Service Examination, and other PSUs & government sector examination after B.Tech and How to grab these opportunity in this COVID pandemic situation. Motto of this webinar is to encourage students to achieve their dreams through proper guidance & positive vibes. Some of the highlights of the webinar are:

- In & out of GATE & other competitive exams
- Various career opportunities
- Productive utilization of Covid period for academics & competitive exams
- Do's & don't to become a topper
- Why and why not approach?
- Many arrows in one quiver
- Art of making effective notes
- How to face different phases of recruitment (Written Test/GD/Interview)

### Feedback from participants:

## Webinar Report

Webinar  
on

### **"IMPERATIVE IDEAS AND CHALLENGES FOR THE PROFESSION DEVELOPMENT IN INDUSTRIES AND TERTIARY EDUCATION"**

Department of Electronics and Communication Engineering, Jaipur Engineering College & Research Center (JECRC), Jaipur and BYJU's Career Labs has organized a WEBINAR on "Imperative ideas and challenges for the profession development in Industries and Tertiary Education", in association with IEEE Rajasthan Subsection, IETE Student Chapter & OSA Student Chapter-JECRC on 14/08/2020 from 04:00 PM to 5.30 PM through GoTo Webinar platform. All registered participants received E-certificates after the end of session and submitted feedback form. Registration for this event was done by using GoTo webinar registration tool and it is free for the JECRC as well as outside participants. The event was coordinated by **Dr. Sandeep Vyas**, HoD, ECE, department, JECRC Jaipur and **Mr. Jaiverdhan**, Assistant Professor, ECE department, JECRC Jaipur (**moderator**).

The invited speaker for this event is **Mr. Abhishek Gupta -Head of Speakers & Manager-Strategic Partnership, (BYJUS Career Labs)**.

#### Summary:

Webinar :4  
Date :14-08-2020  
Topic :Imperative ideas and challenges for the profession development  
in Industries and Tertiary Education  
Invited Speaker :**Mr. Abhishek Gupta -Head of Speakers (BYJUS Career Labs)**  
Participants attended the event :140

  
Head of the Department  
Electronics & Communication Engineering  
JECRC, Jaipur

### Outcome of The Event:

In this webinar, participants have learned about the different carrier opportunity and eminent institutes for the higher education in India and outside of India and How to grab these opportunity in this COVID pandemic situation. Motto of this webinar is to encourage students to achieve their dreams through proper guidance & positive vibes. Participants get help to craft their career journey over a wide range of preparatory programs for national and international entrance exams, as well as Admissions Consulting Services for Graduate and Business Schools, both abroad and in India. Some of the highlights of the webinar are:

- In & out of competitive exams
- Various career opportunities
- Productive utilization of Covid period for academics & competitive exams
- Why and why not approach?
- Many arrows in one quiver
- Art of making effective notes
- How to face different phases of recruitment (Written Test/GD/Interview)
- How to get into Fortune 500 Companies
- Profile Building for Higher Education
- Technical Profile boost for Placements
- Top Masters with 100% Scholarships

### Feedback from participants:

**Mr. Jaiverdhan**  
Asst. Prof. ECE, JECRC

**Photographs of event:**

### TIME MANAGEMENT TIPS FOR IAS EXAM

- 01 Focus on PMS Exams**  
Once you cleared the exams then you will have enough confidence to crack the main exam.
- 02 Make your last dreams make them to end work**  
strategies to secure good jobs in merit list.
- 03 For understanding the things properly**  
you need to study with expert teachers.
- 04 Candidates can understand the question**  
paper by studying the last 10 years question paper and paper solution.
- 05 Candidates should get certain rest**  
every day. At least 7 hours of sleeping is essential to keep your brain active.

- Comprehensive and up-to-date material on important topics.
- 250+ chapter-wise tests with detailed personalized feedback.
- Practice to perfection - 600+ practice questions with detailed solution.
- Mock interviews with retired and servicing bureaucrats.
- 16 All India Tests (8 GSAT + 8 GS) with 20,000 test-takers across the country.
- Daily News Analysis - One stop preparation for Current Affairs.
- 500+ hours of video lectures by the same teachers - revise and refer to videos during self-study periods.

THANK YOU

Head of the Department  
Electronics & Communication Engineering

**Company Profile** : Although rapidly developing, the CSR ecosystem still faces information asymmetry and knowledge gaps, which prevents like-minded people from identifying areas of collaborations, and limits efforts towards social good. This is where CSRBOX comes into the picture. CSRBOX is India's leading CSR knowledge and impact intelligence driven partnerships platform for the development community. At CSRBOX, we are committed to the idea of advancing social impact and change. Whether you are a Donor agency looking to invest in transformative and sustainable projects or an implementation leader dedicated to accomplish your organization's goals, CSRBOX can help you achieve your objectives. With years of experience in working on social development projects with nonprofits, corporate and social enterprises, we excel in catalyzing the

vibrant social transformation movement in India by driving collaborations and partnerships for good. With research, strategy and designing tailored programs in the CSR ecosystem, we help our clients solve their most challenging issues.

**E-mail:** skillsbuild@csrbox.org

**Departmental Organizer:** Mr. Abhishek Dixit (Assistant Professor, CSE Deptt.)

**Session Description :** The session started at 10:30 AM. Initially the moderator Mr. Abhishek Dixit welcomed the guest, HoDs and other faculty members who have joined the call and set the tone by introducing the speaker and informing the audience about the session. Mr. Manoviraj started the session with PPT by introducing about “how to build resume”, The speaker also discussed Do’s and Don’t’s while preparing a resume and also discussed many practical examples of what to do and what not to do in an interview i.e. interview etiquettes. The session went for around 1.5 hours where in the end speaker answered all the queries raised by the students. In the end, Dr. Sanjay Gour (HoD, CSE) has given vote of thanks and requested the speaker to organize more sessions in this category so that students get benefitted.

**Audience :** IV & VI Sem Students of JECRC ( All Branches)

## Snapshots

:

**IBM SkillsBuild**

You will not get recruited for getting this right- but will get rejected for getting this wrong!

- ❖ Consistency in
  - Font-size and style
  - Line spacing
  - Chronological order of points under a particular bullet
  - Date formatting
- ❖ Accuracy in:
  - Contact details
  - Any data or numbers
  - Years mentioned
  - Spelling and Grammar
- ❖ Work effectively using and reducing white spaces
- ❖ Place relevant and impressive information at the top
- ❖ In each sentence, make the impact in the first half
- ❖ Don't use 'I' or any pronouns

The screenshot shows a Zoom meeting interface. The main content is a presentation slide titled "Email etiquette" from IBM SkillsBuild. The slide lists several guidelines for writing emails, such as "Write a meaningful subject line" and "Use standard capitalization". On the right side, there is a list of participants including Abhishek Dixit (Co-host), Manoviraj (Host), Dr. Sanjay Gour (Co-host), and others. The bottom of the screen shows the Windows taskbar with the time 11:06 AM on 5/20/2021.

## **SPEAKER'S PROFILE**

Expert Talk on **“ENTREPRENEURSHIP AS CARRIER OPPORTUNITY”** on 7<sup>th</sup> may 2021 from 3:30 pm to 5:00 pm.

### **MS. SHUBHRA SRIVASTAVA**

Shubhra Srivastava is the Co-founder and CEO of GaragePlug, a cloud-based easy-to-use software providing an end to end digital platform for auto repair workshops and detailing centers. Shubhra started her career as a software developer in 1999 and worked for almost 18+ years in various multinational companies in different roles, starting as a developer and eventually leading various Global Programs and platform launches. She has worked in various domains such as telecom, engineering, cyber security, and instrumentation. In her 18 years of experience, she has learned the art of problem-solving and developing strong teams and organizations.

Shubhra's journey with GaragePlug started in 2018 with little knowledge about business and industry, but she is now very confident about their business and the value they are generating, helping hundreds of automotive workshops to manage their entire business and customer journey on a single mobile-based platform.

## SESSION'S DETAILS

(7/05/2021 from 3:30 PM to 5:00 PM)

The session started at 3:30 pm by welcoming the guest “**Ms. Shubhra**” (Co-founder of Garage plug). She started the session by discussing about a famous quote on entrepreneurship that “**Entrepreneurship is about being able to face failure, manage failure and succeed after failing**”. Proceeding further participants were asked to raise their queries so that all their doubts could be covered up through the entire session. Later she briefly described about their startup and begin to discuss their exciting journey to successfully launch the product.

“**Garage Plug**” is a cloud-based easy-to-use software for 2W & 4W Auto Repair and Detailing service centers to grow & manage your business. It was started by **Mr. Rohit, Mr. Ashish** and **Ms. Shubhra** in 2017.

### Who we are?

- GaragePlug is a SaaS platform for automotive aftersales market.
- Started by Rohit, Ashish and Shubhra in 2017
- Acquired 450+ B2B customers in 12+ countries
- Growing 3X YoY

She further introduced the “**PRINCIPLE OF EFFECTUATION**” (BIRD IN HAND)

When expert entrepreneurs seek to build a start with their means. These means can be in three categories:

- )] **WHO I AM** –my traits, tastes and abilities
- )] **WHAT I KNOW** – my education, my training , expertise and experience
- )] **WHO I KNOW** – my social and professional network

Then she shared the strategy to be followed to launch a successful startup, through her own experience.

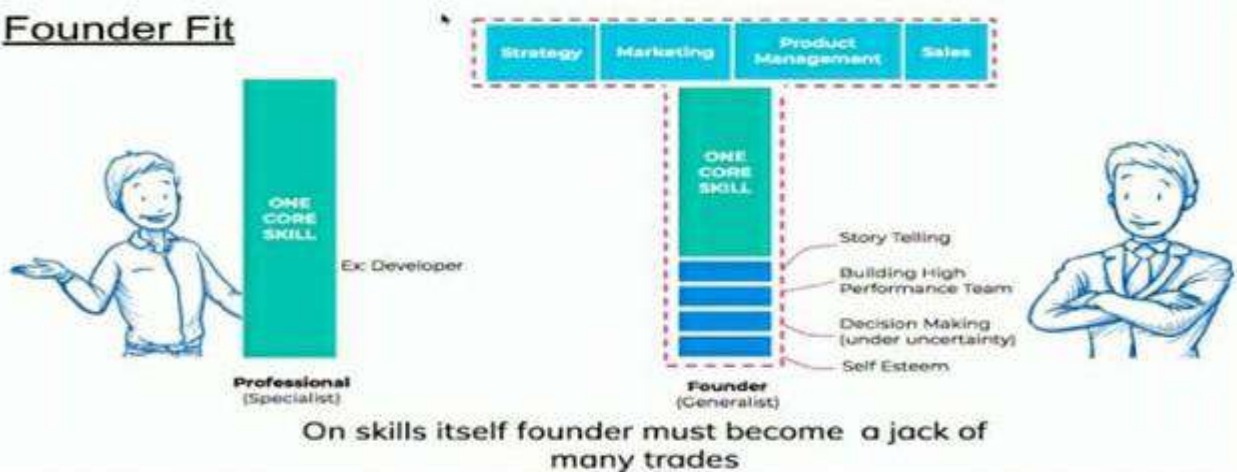

- ❖ **FOUNDER FIT:** One of the most important assets to have in an early-stage startup is founder-market fit. Founder-market fit is an innate, unfair advantage that sets founders apart from their competitors. Accelerators and Early Stage VCs often look for it when evaluating founders for Potential investments.
  
- ❖ **IDENTIFYING THE PROBLEM:** A problem can be regarded as a difference between the actual situation and the desired situation. This means that in order to identify a problem the team must know where it is meant to be and have a clear understanding of where it currently is in relation to the perceived problem.

The following steps can help to identify the problem:

- )] Talk to different people of owner of product
- )] Understand top pain points
- )] Understand the impact of problem
- )] Analyze the market potential

## Founder Fit

- ❖ **Build MVP (Minimum Viable Product):** MVP is a process of building a new product with core functionalities and important, minimum features, to test how the target audience would respond. Then, the building of the actual product takes place with the full set of features after a series of iterations, with feedback from early adopters.

In middle of the seminar she made a strong statement that **“The features reside in product but value resides in customers mind”** with the help of real life examples.

Examples and the story of their company was really motivating and participants were overwhelmed by it.

She also explained about what a product is a combination of: Basically it is a combination of high value problem, resonates with a group of people, when hired gives benefits or not, near standard price tag and easy to replicate on per unit cost.

### Product is combination of

#### High Value Problem

Which is usually captured Implicitly in a short keyword

#### Resonates with a group of people

Called Intended Customer Persona

When hired gives benefits which translates to Value for one Customer Persona

#### Near Standard Price Tag

Easy to Replicate on per unit cost

In the later half of the session she discussed about **ICP (Ideal customer profile)**: An ideal customer is ready, willing and able to purchase your solution. Beyond that, they're also likely to experience extreme success with your product, maximize your profitability, provide you with referrals, and even become brand advocates.

The best way to develop an accurate ICP is to compare and analyse existing customers who are getting immense value from your solution.

First, identify those who are not just using your product, but who love the product and are getting more value from it than your average user. Try to come up with a list of ten super users, but as long as you have a few this will work.

Now, when the product is ready the most important thing is to sell it and go to the market so the speaker gave a brief about this technique too.

**Start selling – Go to market** : The challenge becomes how to sell your product and create a sustainable revenue stream, so that you can further develop your product offerings, build your infrastructure, repay your investors, and pay yourself. Figuring out a go-to-market approach is no trivial exercise — it separates the companies that will be successful and sustainable from those that won't.

As we moved towards the end of the session, she discussed about the **GTM STRATEGY AND CHALLENGES FACED IN IT.**

Creating a GTM strategy involves clarifying plans and directions to enter a new market and reach ultimate business growth milestones. The challenges faced while strategizing a Go-to-Market plan revolve around the following factors:

- J **Customers:** They are a crucial factor to consider while building a GTM strategy. Determining your initial customers, create effective tactics to deliver excellent customer experience. This will help you work out the best approach for engaging different customer types, gain loyal customers and accelerate product purchase.

- J) **Channels:** Measure up to the ideas and vision of your team to work collectively to launch a new offering with an impactful message. Your workforce collaborating with each other across various channels is a key factor to consider when overcoming the challenges in the primitive stages of your GTM strategy.
- J) **Competitors:** Conduct specific analysis like PESTLE and SWOT to understand your competitors and their performance in your targeted market. This will help you find any market gap and exploit your competitors' weaknesses in the right segment.

### GTM at GaragePlug

- Selection of Geography
- Ideal Customer Persona
- Early Adopters
- Marketing Channel

*"Believe in your early customers. They will tell you what to do :-)"*

The session concluded by giving vote of thanks to our guest of honor.

The entire session was very interactive and fruitful for student. We learnt a lot about Entrepreneurship. Overall it was an amazing session.

## THANKS LETTER

Dear Participant,

Greetings from JECRC College, Jaipur...!

We are delighted to have you with us in the **Expert Talk on “ENTREPRENEURSHIP AS CARRIER OPPORTUNITY” On 07/05/2021 from 3:30 PM to 5:00 PM**

Thank you for being a part of our event. Please find the participation certificate.

Looking forward to your participation in our future events too.

Warm regards,

Event Coordinator  
JECRC, Jaipur

# FEEDBACK FORM AND DATA ANALYSIS

Feedback forms were provided to all the participants after end of Session. The following results were gained after the analysis of data

The screenshot displays a Google Forms interface. At the top, there are tabs for 'Questions' and 'Responses' with a '241' badge next to 'Responses'. Below the tabs, the main heading reads '241 responses'. A red banner indicates 'Not accepting responses' with a toggle switch. A message box contains the text 'Message for respondents' and 'This form is no longer accepting responses'. Below this, there are three tabs: 'Summary', 'Question', and 'Individual'. The 'Individual' tab is selected, showing a list of names under the heading 'Name' and '241 responses'. The names listed are: Hardik Maheshwari, Priya Gupta, Deepika Bansal, Kusum Yadav, ABHILASHA, and RAJAN KUMAR JHA.

# GLIMPSES OF FDP & SESSIONS

## Who we are?

- GaragePlug is a SaaS platform for automotive aftersales market.
- Started by Rohit, Ashish and Shubhra in 2017
- Acquired 450+ B2B customers in 12+ countries
- Growing 3X YoY

### Founder Fit

The diagram illustrates the transition from a specialist to a generalist. On the left, a 'Professional (Specialist)' is represented by a man in a white shirt and tie, with a vertical teal bar labeled 'ONE CORE SKILL' and the example 'Ex: Developer'. On the right, a 'Founder (Generalist)' is represented by a man in a suit with arms crossed, with a vertical teal bar labeled 'ONE CORE SKILL' and a horizontal bar above it containing four boxes: 'Strategy', 'Marketing', 'Product Management', and 'Sales'. Below the founder's bar are four blue boxes representing additional skills: 'Story Telling', 'Building High Performance Team', 'Decision Making (under uncertainty)', and 'Self Esteem'. The text below the diagram reads: 'On skills itself founder must become a jack of many trades'.

## INVITATION TO PARTICIPANT

Dear All,

Greetings from the JECRC College!

It gives immense pleasure to announce that Department of Information Technology, JECRC Jaipur is going to organize Expert Talk on “FUTURE OPPORTUNITIES FOR CS & IT PROFESSIONALS”

Date: 10/05/2021

Time: 3:00PM to 4:30PM

Join Zoom Meeting Time: May 10, 2021 03:00 PM

Mumbai, Kolkata, New Delhi Join Zoom Meeting

<https://zoom.us/j/91409740749?pwd=aDVkbkc4Z0ZBRnBKUWNYakxvQ2VqUT09>

Meeting ID: 91409740749

Passcode: 8jpsLR

### **Important Note:-**

1. No Registration Fees
2. E-certificate: All registered participants will be eligible to get E-certificate after joining the complete session and submitting the feedback form.
3. Feedback link will be provided at the end of the Expert Talk treated as attendance.
4. Programme will be conducted through online mode.

### **Faculty Coordinators**

Mohd Rizwan Khan

Associate Professor  
JECRC, Jaipur

Dr .Smita Agarwal

HOD - IT (9928023107)  
JECRC, Jaipur

## Speaker's Profile

Expert Talk on “**FUTURE OPPORTUNITIES FOR CS & IT PROFESSIONALS** “on 10/05/2021  
from 3:00PM to 4:30PM

### **Mr. Lalit Yagnik**

Mr. Lalit Yagnik is a Managing Director, Asia Pacific/Australia-Unify Cloud LLC,Redmond Wash.,USA |Digital Transformation Leader, Architect in Cornell University-Unify Cloud LLC Singapore. He has a 20+ years Driving Digital Transformation programs and project at IBM in Australia, Singapore, India and freelance in Startups, Enterprise and Edu Tech.

## Session Details

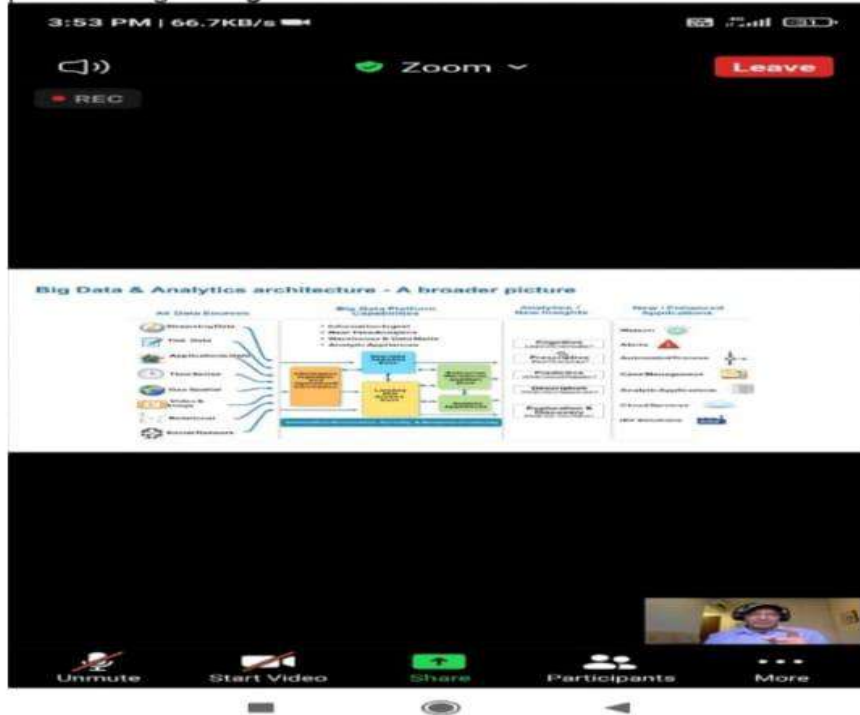

(10/05/2021 from 3:00PM to 4:30PM)

The session started sharp at 3:00 pm on 10<sup>th</sup> may by welcoming esteemed speaker “Mr. Lalit Yagnik” (Director, technologist ,Solution Architect & Mentor – Disruptive Solutions & Skills Initiatives). Then Mr. Lalit commence the session by discussing the main agenda of the entire session i.e. “Emerging Digital Technologies powering transformation of Industry & Society”. He introduced about various emerging technologies like:

- ❖ **Big Data Analytics, AI / ML:** AI-powered systems can analyze data from hundreds of sources and offer predictions about what works and what doesn't. It can also can deep dive into **data analytics** about your customers and offer predictions about consumer preferences, product development, and marketing channels.
- ❖ **Cloud Computing:** cloud computing is the delivery of **computing** services—including servers, storage, databases, networking, software, analytics, and intelligence—over the Internet (“the **cloud**”) to offer faster innovation, flexible resources, and economies of scale.
- ❖ **Augmented Reality:** Augmented reality (AR) is an interactive 3D experience that combines a view of the real world with computer .
- ❖ **Robotics:** Robotics is an interdisciplinary field that integrates computer science and engineering. **Robotics** involves design, construction, operation, and use of **robots**.
- ❖ **Cyber Security, Block Chain:** Blockchain, a Distributed Ledger Technology (DLT), is focused on creating trust in an untrusting ecosystem, making it a potentially strong **cybersecurity** technology. The ledger system is decentralized, but information is transparently available to members of the specific **blockchain**.
- ❖ **Industry 4.0 – CPS:** Industry 4.0 is the current trend of automation and data exchange in **manufacturing** technologies. It includes cyber-physical systems, the Internet of things and cloud computing. **Industry 4.0** creates what has been called a “smart factory”.

- Dramatic Growth in connections & new devices are triggering an unprecedented spike in data volumes, devices & data.
- Industry 4.0 can be said as “Internet of things”(IOT), data in everything / everywhere.
- 90% of the world’s data was created in the last two years.
- Data of different types and formats impacting the business at new and ever increasing speeds.

**Big Data & Analytics architecture** : A big data architecture is designed to handle the ingestion, processing, and analysis of **data** that is too **large** or complex for traditional database systems. **Big data** solutions typically involve one or more of the following types of workload: ... Real-time processing of **big data** in motion.

Big data solutions typically involve one or more of the following types of workload:

- Batch processing of big data sources at rest.
- Real-time processing of big data in motion.
- Interactive exploration of big data.
- Predictive analytics and machine learning.

**Cloud Computing** : Cloud delivers computing resources in a pay-as-you-go, utility model.

- It is affordable- quick-simple.
- 76% of mobile workers feel that the ability to work outside

the office, yet remain in contact has been a positive development , even though a third are now working longer hours.

- 33%of companies adopted cloud primarily to access information from any device rather than cut costs.
- 59%still identifying IT operations that are candidates for cloud.
- 71% of internet users live mostly in the cloud in 2020.
- Large companies running applications in the cloud can reduce energy consumption by 30%.

In the later half of the session he gave more insights about traditional job roles and new roles top carrers.

**Traditional Job roles:** Software developer, Application Management, IT support Engineer, Test Engineer, Module Leader, Project Manager, Sales Engineer, Database Administrator, System Administrator, Network Engineer.

**New roles top careers :** Data Scientist, Business Intelligence, Artificial intelligence, Security Intelligence, Digital Marketing, Data Warehouse, Predictive Analytics, Omni – Channel Supply Chain, IOT, Cloud Enterprise, Block Chain and the list continues.

As we were moving towards end of the session, it was time to clear all the queries of the participants. Mr. Lalit brilliantly answered all the queries and provided more insights about the particular topic.

He concluded his valuable talks by saying that waiting for someone to offer a job is alright but pursue specific topic and help address the problems. His final statement of the session was “ CS/IT skills are a true asset, with Can-Do Attitude.”

The session was concluded by giving vote of thanks to our honourable guest for providing his precious time. The entire session was interactive and fruitful for participants. We learnt a lot about “ future opportunities for CS & IT professionals”. Overall it was an amazing session.

**RTICIPANTS DETAIL**  
**Department of Information Technology**  
**Expert Talk on “FUTURE OPPORTUNITIES FOR CS & IT**  
**PROFESSIONALS” On**  
**10/05/2021 from 3:00PM to 4:30PM**

**STUDENT REGISTRATION DATA:**

## THANKS LETTER

Dear Participant,

Greetings from JECRC College, Jaipur...!

We are delighted to have you with us in the **Expert Talk on “Future Opportunities for CS & IT  
“On 10/05/2021 from 3:00PM to 4:30PM**

Thank you for being a part of our event. Please find the participation certificate.

Looking forward to your participation in our future events too.

Warm regards,

Event Coordinator  
JECRC, Jaipur

### Opportunity? Digital Transformation Everywhere: Industry / Society / Govt / Education / Health (INDUSTRY 4.0): Sensors & Data Everywhere

The infographic features several data points and a central diagram. On the left, it lists '300+ \$500bn users purchasing 500+ billion tweets every day' and '2.65+ Billion active Facebook users, 50% increase of 2016'. In the center, a diagram titled 'Big Data flows worldwide' shows data flowing from various devices. To the right, it states '20 billion web page hits (1.08 billion in 2000)', '4.5+ Billion connected devices worldwide', and '100K+ instances of GPS worldwide'. Below this, it notes '20 million smart meters in 2009, 1 billion by 2022' and '2+ Billion people on the Web by end 2015'. A URL 'http://www.' is also visible.

#### Elon Musk becomes world's richest person

Elon Musk becomes world's richest person. Tesla CEO's net worth rises to \$100 billion as shares surge.

#### Unbundling The Automobile

A diagram of a red sports car with various suppliers and services connected to it, including Bosch, Continental, and others.

### Registration Form

The image shows a screenshot of a Google Forms registration form titled "A Webinar on 'Career guidance for pursuing higher studies in abroad'". The form is displayed in a web browser window with the URL [docs.google.com/forms/d/1QxTIMwvLvCRD8sz1pfRlqjJQkn-ICPfd0Ds\\_LW1mVcl/edit](https://docs.google.com/forms/d/1QxTIMwvLvCRD8sz1pfRlqjJQkn-ICPfd0Ds_LW1mVcl/edit). The form includes the following fields:

- Title:** A Webinar on "Career guidance for pursuing higher studies in abroad" (One Day)
- Event Address:** Jaipur Engineering College & Research Center, Jaipur
- Email:** A required text field with a "Valid email" error message and a note: "This form is collecting emails. Change settings".
- Title of Name:** A dropdown menu with options "Mr." and "Ms.".
- Full Name:** A required text field with a "Short answer text" label.
- Organization/College:** A dropdown menu with options "JECRC, JAIPUR" and "Others".

The browser's taskbar at the bottom shows the Windows logo, a search bar, and several open applications including Chrome, Word, and Excel. The system tray on the right indicates the time is 10:34 and the date is 09-07-2021.

# Speaker's Profile

Webinar on "Career Guidance for pursuing higher studies in abroad" on 12/06/2021  
from 11:30 AM to 12:30 PM

## Ms. Manisha Gupta

Ms. Manisha Gupta is a Student in Master of Science at University of Southern California, Los Angeles, Specialization in machine learning and data science, Data Engineering Intern at Amazon Web Services, Seattle. She has a strong program and project management professional with a Bachelor of Technology (B. Tech.) in ECE and from Rajasthan Technical University, Jaipur Engineering College & Research Centre, Jaipur. With her passion of tinkering with electronics & programming, she started Internship at Amazon.

## Session Details

(12/06/2021 from 11:30AM to 12:30PM)

### When do I start looking for schools?

Entire Process takes time, Including prep give yourself an year

- ✓ Searching for graduate schools is an extremely time consuming task easily taking hours of your time.
- ✓ You will also need to visit each school website to ensure they are what you are looking for in a school.

### How do I choose schools?

Based on your interests

Based on programs

Based on geography

Since graduate school admission is so competitive you should choose about 10 schools to increase your chances

Ambitious + Moderate + Safe

## Session Details

**(12/06/2021 from 11:30AM to 12:30PM)**

### Why should I start looking so soon?

- ✓ GRE Cut-off Scores for Admittance

Most schools have an arbitrary cut-off score to narrow down the number of applicants (i.e., 315/340). Sometimes a weakness in this area can be overcome by strengths in other areas (i.e., strong research experience / high GPA).

### Why should I start looking so soon?

- ✓ Application Deadlines

Most schools have fall deadlines in January and February; however, there are some schools that may have deadlines much earlier priority deadlines (Dec 1st). These deadlines are set and if you are late they may not look at your application at all.

- ✓ Selection Criteria

- ✓ Rolling based admission

## Where do I look?

- ✓ Talk to your faculty/seniors  
They can make suggestions about different schools they know about and give advice on schools that you have found.
- ✓ Join aspirant groups on Social Media.
- ✓ Visit applications (Eg Yocket) specifically made for abroad studies

## Applications

- ✓ Visit the schools' admission website
- ✓ Plan to get scores from qualifying exams one month before application deadline.  
You will need a great deal of time to go through the applications, fill them out, plan and write your essays and get feedback on them.
- ✓ GRE Score + TOEFL/IELTS score + Statement of Purpose + CV + Recommendation letters (2/3) + Official Transcripts

REC Manisha Gupta is presenting

## Why should I start looking so soon?

- ✓ GRE Cut-off Scores for Admittance

Most schools have an arbitrary cut-off score to narrow down the number of applicants (i.e., 315/340). Sometimes a weakness in this area can be overcome by strengths in other areas (i.e., strong research experience / high GPA).

- ✓ Other Tests Required (Language test : Toefl. IELTS)
