Dear Sir,

As per your email I am sending the comments for the same :

As per your email I am sending the comments for the same :

1. The topic selection is within the periphery of general research areas.
2. Experimental program analysis work found correct with proper sources.
3. For conclusion, it is having a little bit improper representation of the results as the expected variations were found less.

Overall work is good and liable to proceed to the next evaluation step.

Dear Sir/Madam,

Greetings!!

Hope you and your family are doing well.

It is our pleasure to inform you that we are organizing **4th International Conference on Flexible Electronics for Electric Vehicle (FlexEV-2024)** during **December 19th – 20th, 2024** at **Manipal University Jaipur, India**.

The Conference on Flexible Electronics for Electric Vehicles (FlexEV-2024) aims to bring together leading academic scientists and researchers to exchange their experiences & research results on every aspect of Flexible Electronics and its application in the field of Electric Vehicles. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered, and solutions adopted in the fields of Flexible Electronics for Electric Vehicles.

The technical topics to be covered in the conference are broadly divided into four tracks.

Track 1: Flexible Electronics & Applications

The broad topics covered: Application of Flexible Electronics in IoT Sensors, Bio-medical Sensors, RFID & NFC, Thin Film Transistors, Photovoltaics, Circuit Design for Flexible Electronics, Robotics, Flexible Printed Electronics, MEMS, Nanotechnology, and applications.

Track 2: Electric Vehicle Technology & Infrastructures

The broad topics covered: Electric Vehicles, Driving Systems, Vehicle Safety, markets & new technologies for EV, Charging Infrastructure, Smart Grid Infrastructure, Road Vehicle Dynamics, V2V and V2I Communication, Vehicle Environment Perception & Green Manufacturing.

Track 3: Materials & Device

The broad topics covered: Organic and inorganic materials and devices for flexible electronics, Materials synthesis, characterization, and modelling, battery, fuel cell, proton battery and energy storage systems, recycling & re-utilization of EV batteries, research & advancements in energy storage devices.

Track 4: Battery Management & Intelligent Systems

The broad topics covered: Battery design, battery management systems (BMS) for electric and hybrid EVs, battery chargers: onboard, wireless, fast, and ultra-fast, intelligent decision and motion control, multi-sensors fusion, intelligent vehicle infrastructure & policies, autonomous and intelligent robotic vehicles.

Selected papers from the conference will be published by Scopus Indexed Lecture Notes in Electrical Engineering, Springer as a proceedings book volume (<https://www.springer.com/series/7818>).

In this regard, we would like to request to serve as a member of the Technical Committee/ Review Committee.

Looking forward to your consent for the same.

Dear Evaluators,

To access the answer scripts on the Code Tantra platform, please adhere to the following steps:

1. Log in to your Code Tantra account(<https://poornimace.codetantra.com/login.jsp>).
2. Go to the "Faculty" section.
3. Choose the "Test" option.
4. Navigate to the "Evaluation" tab.
5. Select the specific test you wish to evaluate from the options provided.

Here are the guidelines to follow while evaluating answer scripts:

- i). Ensure to review every page of the answer script to prevent students from claiming that their answers were unchecked in the future.
- ii) If students have incorrectly bubbled their answers for a particular question, take their intended answer into consideration.
- iii) Allocate marks in the provided space located on the right side of the answered script.
- iv). Once evaluation is complete, save and freeze the answer script.
- v). After freezing, no further changes can be made to the evaluated answer script, and it will automatically be transferred to the examination cell.

Adhering to these instructions will help maintain fairness and accuracy in the evaluation process.

NOTE: A few hours ago, the Coe team registered your accounts on poornimace.codetantra.com for evaluation assignments. You will receive an OTP email from support@codetantra.com to set your password. Please follow the instructions in the email and set your password accordingly.

If in case of any forgot password issues, please follow the instructions below to log in to the portal:

- a) Visit sign-in page (<https://poornimace.codetantra.com/login.jsp>)
- b) Click on the forgot password.
- c) Enter registered email id (registered mail id) and click on recover.
- d) You will receive an email with OTP from support@codetantra.com.
