### **Vision of JECRC Foundation**

- Vision to become a renowned centre of outcome based learning, and work towards academic, professional, cultural and social enrichment of the lives of individuals and communities.

### **Mission of JECRC Foundation**

- Focus on evaluation of learning outcomes and motivate students to inculcate research aptitude by project based learning.
- Identify, based on informed perception of Indian, regional and global needs, areas of focus and provide platform to gain knowledge and solutions.
- Offer opportunities for interaction between academia and industry.
- Develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions.

### **Vision of Department of Mechanical Engineering**

- The Mechanical Engineering Department strives to be recognized globally for outcome based technical knowledge and to produce quality human resource, who can manage the advance technologies and contribute to society.

### **Mission of Department of Mechanical Engineering**

- M1. To impart quality technical knowledge to the learners to make them globally competitive mechanical engineers.
- M2. To provide the learners ethical guidelines along with excellent academic environment for a long productive career.
- M3. To promote industry-institute relationship

## **PROGRAM EDUCATIONAL OBJECTIVES**

1. To provide students with the fundamentals of Engineering Sciences with more emphasis in Mechanical Engineering by way of analyzing and exploiting engineering challenges.
2. To train students with good scientific and engineering knowledge so as to comprehend, analyze, design, and create novel products and solutions for the real life problems.
3. To inculcate professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach, entrepreneurial thinking and an ability to relate engineering issues with social issues.
4. To provide students with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the self-motivated life-long learning needed for a successful professional career.
5. To prepare students to excel in Industry and Higher education by Educating Students along with High moral values and Knowledge.

## **Program Outcomes**

1. **Engineering Knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems in IT.
2. **Problem analysis:** Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences in IT.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations using IT.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions using IT.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations in IT.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice using IT.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development in IT.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice using IT.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings in IT.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project Management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage IT projects and in multidisciplinary environments.
12. **Life –long Learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological changes needed in IT.

## **RESPONSIBILITY OF MENTOR**

- Take an interest in developing student's career and well-being.
- Mentors keep track of their students' progress and achievements, setting milestones and acknowledging accomplishments.
- Encourage students for attending all the activity related to academics.
- Informing students about the profile of companies coming for recruitment as per information obtained from placement department.
- Engage the Student beyond the Classroom especially for communication practices and emphasize the importance of communication for sure success.
- Keep the department / panel members informed, if any student is not taking his/her Academics seriously.
- Guide student for practical training and project presentation.
- Guide students for technical interview.
- Guide and Evaluate student for GD for companies requiring GD.
- Guide students for General Knowledge about Industries in their domain.
- Provide Ethical Guidance.

- 2.Students facing any issue in college and classes

**Attendees:**List Attached

**Meeting Venue Time and Date:** DT-03 at 12:00 noon on Monday 11/11/2024.

Meeting started with a welcome note by Mr.Yogesh Dubey (Assistant Professor, ME) and following points were discussed during the meeting.

| S.No. | Points                                                                                 |
|-------|----------------------------------------------------------------------------------------|
| 1.    | To make the fundamentals more understandable, some technical subjects should be taught |

|    |                                                                                                                                                               |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | by professionals.                                                                                                                                             |
| 2. | Every student should style their resumes correctly and submit them in soft copy.                                                                              |
| 3. | To make company writing easier to understand, several aptitude classes ought to be more accessible.                                                           |
| 4. | It was mentioned that as RTU awards credits for MOOCs, all students need to sign up for online learning platforms such as NPTEL, Coursera, Udemy, and others. |

### **Action Taken (MOM-2)**

1. MOOCs were recommended based on students' interests.
2. A few websites that are recommended for technical and resume-building.
3. To prepare and complete the self-evaluation, online resources are offered and recommended.

## **Vision of Institute**

To become a renowned center of outcome-based learning, and work towards academic, professional, cultural and social enrichment of the lives of individuals and communities.

## **Mission of Institute**

M1: Focus on evaluation of learning outcomes and motivate students to inculcate research aptitude by project-based learning.

M2: Identify, based on informed perception of Indian, regional and global needs, areas of focus and provide platform to gain knowledge and solutions.

M3: Offer opportunities for interaction between academia and industry.

M4: Develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions.

## **Program Outcomes**

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

## **Responsibility of Mentor**

- Take an interest in developing student's career and well-being.
- Mentors keep track of their students' progress and achievements, setting milestones and acknowledging accomplishments.
- Encourage students for attending all the activity related to academics.
- Engage the Student beyond the Classroom especially for communication practices and emphasize the importance of communication for sure success.
- Keep the parents informed, if any student is not taking his/her Academics seriously.
- Guide student for skills as well as personality development.
- Motivate students for participation in various technical/cultural/social & extra-curricular activities.
- Provide constructive feedback to help mentees, to identify strengths and areas for improvement.
- Provide Ethical Guidance.
- Maintain a consistent and reliable presence throughout the mentoring relationship.

## Jaipur Engineering College and Research Centre

### FIRST YEAR NOTICE

Date- 15/2/25

**From: Dr. Sanjay Kumar Bansal**

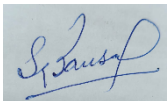

**To- Mentee D-2 Batch**

|                                      |                 |
|--------------------------------------|-----------------|
| From: <b>Dr. Sanjay Kumar Bansal</b> | To: All Mentees |
|--------------------------------------|-----------------|

It is communicated to all mentees that a meeting is scheduled for September 17/2/25 at 12:30 p.m. Each and every mentee is asked to attend.

Meeting Venue Date and Timing are as below:

**Meeting Venue Time and Date:** CF-07 at 01:30 pm 17/2/25

Faculty Name:

**Dr. Sanjay Kumar Bansal**

Mentor

Batch: D-2

Copy to-

Dean, (First Year)

All Concerned Students

**Jaipur Engineering College and Research Centre**

**FIRST YEAR**

**Minutes of the meeting**

**B. Tech First Year Sem-II (Section-D-2)**

**Venue/Platform :CF-07**

**Date : 17/2/25**

**From: Mentor: Dr. Sanjay Kumar Bansal**

**To: All Mentees**

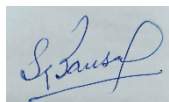

**Agenda**

- 1. To communicate with pupils about their issues, whether they are personal, academic, or otherwise.**
- 2. Interaction with students regarding their classes and labs**
- 3. Discussion related to new curriculum & plan**
- 4. Feedback on delivery for various subjects**

**B. Tech First Year Sem-II(Batch-D-2)**

|                                      |                 |
|--------------------------------------|-----------------|
| From: <b>Dr. Sanjay Kumar Bansal</b> | To: All Mentees |
|--------------------------------------|-----------------|

**Venue/Platform : CT-13**  
**Date : 03/05/25**

**Agenda:**

- 1. Solution of MTT Question Papers and its analysis**
- 2. “SPORTS” activity for Semester-II**
- 3. Preparation of sports Diary with pictures**
- 4. Discussion with slow learner**

**Attendees List Attached**

All of the D-2 Batch students were greeted by the mentor, and the following topics were discussed:

1. Students were told about mandatory 75% for mid-term and RTU examinations.
2. Students were told to discuss the solution of the mid-term paper with the subject teacher to remove the difficulties.
3. . It was suggested that students complete the assignment and homework.
4. Mentor gave a brief introduction about “SPORTS” Activity for Sem-II.
5. Students were informed about the preparation of sports Diary with video and Photographs.
6. Finally slow learners were motivated to consult subject concerned teachers to discuss their problems in the subject.

**Dr. Sanjay Kumar Bansal**  
**Mentor D-2 Batch**

### **Action Taken (MOM)**

1. Students' issues with file preparation were resolved following a discussion with the sports activity Co-ordinator.
2. Few of the subject teachers were called in the meeting to motivate the students to meet them personally for the individual problems.
